Executive Summary

DS Consultants Ltd. (DS) was retained by Medallion Corporation (the "Client") to conduct a Phase One Environmental Site Assessment (ESA) of the Property located at 1749, 1755, 1771 and 1773 Jane Street, Toronto, Ontario, herein referred to as the "Phase One Property" or the "Site". DS understands that this Phase One ESA may be used to support the filing of a Record of Site Condition (RSC) as part of the proposed redevelopment of the Phase One Property for residential purposes. It is further understood that two (2) high-rise structures will be constructed around the current apartment building located centrally on-site. One building is proposed to be constructed in the northern portion of the Site and the second building on the southern portion of the Site. The buildings will consist of up to twelve (12) storeys and two (2) levels of basement (P2).

The Phase One Property is a 0.81 hectare (2.0 acres) parcel of land situated within a mixed residential and commercial neighbourhood in the City of Toronto, Ontario. The Phase One Property is located at the northeast corner of the intersection of Jane Street and Marshlynn Avenue.

The Phase One ESA was completed to satisfy the intent of the requirements, methodology and practices for a Phase One ESA as described in Ontario Regulation 153/04 (as amended). The objectives of the Phase One ESA is to identify the presence or absence of potentially contaminating activities (PCAs) on the Phase One Property and/or within the Phase One Study Area, and to determine if the PCAs identified within the Phase One Study Area are likely to result in an Area of Potential Environmental Concern (APEC) on the Phase One Property.

The scope of work completed as part of the Phase One ESA included a review of reasonably ascertainable records and reports regarding historical and current use, regulatory information, occupancy, and activities for the Phase One Property, interviews with available individuals with knowledge of the current and former site activities, an inspection of the Phase One Property and activities on the adjacent properties and an evaluation of the information obtained with respect to potential concerns associated with the activities identified. The information obtained by the Phase One ESA will be used to assess whether further investigation in the form of a Phase Two ESA is merited. It should be noted that this Phase One ESA does not include any sampling testing and is based solely on a review of readily available data, and observations made during the Phase One Site Reconnaissance.

Based on the records reviewed as part of the Phase One ESA, DS presents the following findings:

- Historically, the Phase One Property was developed with nine (9) historical house structures and six (6) detached auto storage garages. The residential houses were historically located at 1739, 1745, 1747, 1753, 1757, 1761,1763, 1771 and 1773 Jane Street. The houses were located on the western portion of the Site, fronting Jane Street, and the garages are located on the eastern portion of the Site. The historical house structures were constructed between

early to mid 1940s. Seven (7) of the nine (9) historical residential structures and all associated garages were demolished in 1972, and a high-rise apartment building was developed centrally on-Site, in the same configuration as present day. It should be noted that two (2) of the nine (9) houses are in the same building footprint configuration as present day (1771 and 1773 Jane Street). In 1967, a restaurant was developed in the southwest corner of the Site. According to the city directory listing, a Ron's Fish and Chips was listed from 1955-1965. The orientation of the historic Site Buildings are depicted on Figure 2A.

- The Phase One Property is occupied by one (1) 14 storey apartment building with six (6) commercial units located on the main floor, with one (1) level of underground parking. An asphalt parking lot is located south and north of the apartment building. The apartment building and ground level parking is located centrally on-Site and occupies majority of the Phase One Property. One (1) house and one (1) derelict bakery were located on the northern portion of the Site. The orientation of the Site Buildings are depicted on Figure 2B.
- A Preliminary Geotechnical Investigation conducted by SPL Consultants in 2015 included the advancement of three (3) boreholes (BH15-1 to BH15-3) on Site to depths ranging from 9.7 and 41.6 mbgs. All boreholes were instrumented with monitoring wells. It should be noted that BH15-2 is a nested monitoring well. Fill material was encountered in the boreholes ranging in depths between 1.5 to 1.8 mbgs. Fill material was heterogeneous and consisted of clayey silt, sandy silt and silty sand. Underlying the fill material, the native material consisted of silty clay till that was interbedded with layers of sand and sandy silty to silty sand. Upper cohesionless soils consisting of sandy silt, silty sand, sand and gravel were found a at depths ranging from 3.1 to 6.1 mbgs. The lower bearing cohesionless soil was found in BH15-2 below 37.5 to maximum explored depth of 41.6 mbgs.
- The topography of the Phase One Property is generally flat, with a surface elevation of 127 metres above sea level (masl). The topography within the Phase One Study Area generally slopes to the east/northeast, towards Black Creek located 100 m east of the Site. The topography in the Phase One Study Area also slopes to the southeast towards the meandering Black Creek and Lake Ontario, located 8 km south of the Site. According to the SPL 2015 Preliminary Geotechnical Investigation, the groundwater on-Site ranged between 2.2 and 3.7 mbgs, with respective elevations of 123.6 and 124.4 masl. The deep well (BH15-2 D) had a groundwater depth of 11.7 mbgs and an elevation of 115.3 masl. The shallow groundwater flow direction within the Phase One Study Area is inferred to be east/southeast towards Black Creek.
- The Site is situated within a sand plain physiographic region. The surficial geology in the vicinity of the Site is described as "coarse-textured glaciolacustrine deposits" with sand, gravel, minor silt and clayforeshore and basinal deposits. The underlying bedrock within the area generally consists of shale, limestone, dolostone, siltstone, Georgian Bay Formation; Blue Mountain Formation; Billings Formation; Collingwood Member; Eastview Member. Based on

a review of the Ministry of Energy, Northern Development and Mines Bedrock Topography and Overburden Thickness database, the bedrock in the Phase One Study Area is anticipated to be encountered at a depth of approximately 20 mbgs. It should be noted, that the concurrent DS 2025 geotechnical and hydrogeological investigations included the advancement of two (2) boreholes to depths of approximately 46.3 and 49.4 mbgs and bedrock was not encountered within the termination depth.

- Potentially contaminating activities were identified on the Phase One Property as follows:
  - Road salt may have been applied within the parking lot and sidewalks for vehicular and pedestrian safety during winter (PCA-1)
  - Based on the age of the buildings (1771 and 1773 Jane Street), it is likely that the building was formerly heated with fuel oil (PCA-2 and PCA-3)
  - Importation of fill material of unknown quality is possible for grading and backfill purposes during demolition and construction of Site buildings (PCA-4)
  - The previous investigation completed by SPL in 2015, identified fill material at the property ranging between 1.5 to 1.8 mbgs (PCA-8)
- The following off-Site PCAs were determined to be contributing to APECs:
  - A garage with 3 USTs was located at 1778 Jane Street (PCA-5)
  - A dry cleaners was located at 1727, 1744, 1782 and 1788 Jane Street (PCA-19, PCA-20, PCA-24, PCA-25)
  - An automobile repair facility was located at 1772 Jane Street (PCA-21)
  - A gasoline service station was located at 1772 Jane Street and 1778 Jane Street (PCA-22, PCA-28)
  - Industrial Specialties Co. was located at 1791 Jane Street (PCA-26)
  - Suncor Energy Products Partnership located at 1750 Jane Steet, approximately 15 m west of the Site, was listed for the generation of light fuels and waste oils/sludges (PCA-27)

Based on the information obtained as part of this investigation, it is concluded that a total of 31 PCAs were identified within the Phase One Study Area, of which 15 PCAs are contributing to 8 APECs on, in or under the Phase One Property. Further investigation in the form of a Phase Two ESA will be required in order to meet the requirements of O.Reg.153/04 (as amended).

Summary of APECs Identified on Phase One Property

APEC	Location of APEC	PCA	Location of PCA	Contaminants of Potential Concern	Media Potentially Impacted
APEC-1	Entire Property	#N/S: De-icing agents*	On-Site PCA-1	EC, SAR	Soil
				Na, Cl-	Groundwater
APEC-2	Northwestern portion of the Property	#28: Gasoline and Associated Products Storage in Fixed Tanks	On-Site PCA-2	PHCs, BTEX, PAHs	Soil and groundwater

APEC	Location of APEC	PCA	Location of PCA	Contaminants of Potential Concern	Media Potentially Impacted
APEC-3	Northwestern portion of the Property	#28: Gasoline and Associated Products Storage in Fixed Tanks	On-Site PCA-3	PHCs, BTEX, PAHs	Soil and groundwater
APEC-4	Entire property, excluding the footprint of the underground parking garage	#30: Importation of Fill Material of Unknown Quality	On-Site PCA-4	Metals, As, Sb, Se, B-HWS, CN-, Cr (VI), Hg, low or high pH, PAHs	Soil
APEC-5	Entire Property, excluding the footprint of the underground parking garage	#N/S: Historical Soil Quality	On-Site PCA-8	Metals, As, Sb, Se, B-HWS, CN-, Cr (VI), Hg, low or high pH, PAHs	Soil
APEC-6	Western portion of the Property	#28: Gasoline and Associated Products Storage in Fixed Tanks	Off-Site PCA-5	PHCs, BTEX, PAHs	Groundwater
		#27: Garages and Maintenance and Repair of Railcars, Marine Vehicles and Aviation Vehicles	Off-Site PCA-21	PHCs, VOCs, BTEX, PAHs	
		#28: Gasoline and Associated Products Storage in Fixed Tanks	Off-Site PCA-22 PCA-27	PHCs, BTEX, PAHs	
APEC-7	Northwestern portion of the Property	#28: Gasoline and Associated Products Storage in Fixed Tanks	Off-Site PCA-23	PHCs, BTEX, PAHs	Groundwater
		#37: Operation of Dry Cleaning Equipment (where chemicals are used)	Off-Site PCA-24 PCA-25	VOCs	
		#33: Metal Treatment, Coating, Plating and Finishing	Off-Site PCA-26	Metals, As, Sb, Se, CN-, Cr (VI), Hg, PAHs, BTEX	
APEC-8	Southwestern portion of the Property	#37: Operation of Dry Cleaning Equipment (where chemicals are used)	Off-Site PCA-19 PCA-20	VOCs	Groundwater

N/S - not specified in Table 2, Schedule D, of O.Reg. 153/04
* - The area is subject to application of de-icing salts for road safety purposes. Per Section 49.1 (1) of O.Reg. 407/19, published December 4, 2019 "*If an applicable site condition standard is exceeded at a property solely because of one of the following reasons, the applicable site condition standard is deemed not to be exceeded for the purpose of Part XV.1 of the Act*": "*…that a substance has been applied to surfaces for the safety of vehicular or pedestrian traffic under conditions of snow or ice or both*". Any potential impacts associated with EC and/or SAR in soil, and sodium and/or chloride in groundwater will be deemed not to exceed the MECP Site Conditions Standards for the area identified in APEC-1.

Based on the findings of this Phase One ESA, it is concluded that a Phase Two ESA would be required in order to investigate the aforementioned APECs and to assess the environmental soil and groundwater conditions on the Phase One Property. A Record of Site Condition cannot be filed based on the findings of the Phase One ESA.

1.0 Introduction

DS Consultants Ltd. (DS) was retained by Medallion Corporation to complete a Phase One ESA of the Property located at 1749, 1755, 1771 and 1773 Jane Street, Toronto, Ontario, herein referred to as the "Phase One Property" or the "Site." DS understands that this Phase One ESA may be used to support the filing of a Record of Site Condition (RSC) as part of the proposed redevelopment of the Phase One Property for residential purposes. It is further understood that two (2) high-rise structures will be constructed around the current apartment building located centrally on-site. One building is proposed to be constructed in the northern portion of the Site and the second building on the southern portion of the Site. The buildings will consist of up to twelve (12) storeys and two (2) levels of basement (P2).

The intended future residential property use is considered to be a more sensitive property use than the current commercial and residential use, as defined under O.Reg. 153/04 (as amended); therefore, the filing of a Record of Site Condition (RSC) with the Ontario Ministry of Environment, Conservation and Parks (MECP) is required under O.Reg. 153/04.

The Phase One ESA was completed to satisfy the intent of the requirements, methodology and practices for a Phase One ESA as described in Ontario Regulation 153/04 (as amended). The objectives of the Phase One ESA are to identify the presence or absence of potentially contaminating activities (PCAs) on the Phase One Property and/or within the Phase One Study Area, and to determine if the PCAs identified within the Phase One Study Area are likely to result in an Area of Potential Environmental Concern (APEC) on the Phase One Property. The information obtained by the Phase One ESA will be used to assess whether further investigation in the form of a Phase Two ESA is merited. It should be noted that this Phase One ESA does not include any sampling or testing and is based solely on a review of readily available data, and observations made during the Phase One Site Reconnaissance.

1.1 Phase One Property Information

The information for the Phase One Property is provided in the following Table.

Phase One Property Information

Criteria	Information	Source
Legal Description	Part of Block A, Registered Plan 2525 City of Toronto	Survey Plan
Municipal Address	1749, 1755, 1771 and 1773 Jane Street, Toronto, Ontario	Client
Property Owner Contact Information	Medallion Corporation	Client

1.2 Site Description

The Phase One Property is a 0.81 hectare (2.0 acres) parcel of land situated within a mixed residential and commercial neighbourhood in the City of Toronto, Ontario. The Phase One Property is located at the northeast corner of the intersection of Jane Street and Marshlynn Avenue. A Site Location Plan is provided in Figure 1.

For the purposes of this report, Jane Street is assumed to be aligned in a north-south orientation, and Marshlynn Avenue in an east-west orientation. A Boundary and Topographic Survey for the Phase One Property dated September 19, 2014 and prepared by KRCMAR Surveyors Ltd., an Ontario Land Surveyor, has been provided under Appendix A.

Historically, the Phase One Property was developed with nine (9) historical house structures and six (6) detached auto storage garages. The residential houses were historically located at 1739, 1745, 1747, 1753, 1757, 1761,1763, 1771 and 1773 Jane Street. The houses were located on the western portion of the Site, fronting Jane Street, and the garages are located on the eastern portion of the Site. The historical house structures were constructed between early to mid 1940s. Seven (7) of the nine (9) historical residential structures and all associated garages were demolished in 1972, and a high-rise apartment building was developed centrally on-Site, in the same configuration as present day. It should be noted that two (2) of the nine (9) houses are in the same building footprint configuration as present day (1771 and 1773 Jane Street). In 1967, a restaurant was developed in the southwest corner of the Site. According to the city directory listing, a Ron's Fish and Chips was listed from 1955-1965. The orientation of the historic Site Buildings are depicted on Figure 2B.

The Phase One Property was occupied by one (1) 14 storey apartment building with six (6) commercial units located on the main floor, with one (1) level of underground parking. An asphalt parking lot is located south and north of the apartment building. The apartment building and ground level parking is located centrally on-Site and occupies majority of the Phase One Property. One (1) house and one (1) derelict bakery were located on the northern portion of the Site. The orientation of the Site Building is depicted on Figure 2B.

2.0 Scope of Investigation

The Phase One ESA was completed to satisfy the intent of the requirements, methodology and practices for a Phase One ESA as described in Ontario Regulation 153/04, as amended (Phase One ESA requirements). This included:

- A review of reasonably ascertainable records and reports regarding historical and current use, regulatory information, occupancy, and activities for the Phase One Property, including:
  - Physical setting information such as aerial photographs, topographic mapping, available historical maps and drawings;
  - Company records (e.g., site plans, building plans, permit records, production and maintenance records, asbestos surveys, site utility drawings, emergency response and contingency plans, spill reporting plans and records, inventories of chemicals and their usage (e.g. WHMIS), environmental monitoring data, waste management records, inventory of underground and aboveground tanks, environmental audit reports) provided to DS;
  - Geological and hydrogeological information in published government maps and/or reports;
  - A review of information on file with ERIS, a commercial database that provides information from numerous private, provincial, and federal environmental databases/registries;
  - Review of fire insurance plans, municipal directory documentation and available environmental reports that are pertinent to the Phase One Property;
  - Regulatory Information, including such as Permits or Certificates of Approval (pertaining to activities that may impact the condition of the property, orders, control orders, or complaints related to environmental compliance that may impact the condition of the property, and violations of environmental statutes, regulations, by-laws, and permits that may impact the condition of the property;
  - Environmental source information including published and online records from Ministry of Environment, Conservation and Parks (MECP), Environment Canada, Technical Standards and Safety Authority (TSSA), and the City of Toronto; and
  - The Ontario Ministry of Natural Resources (MNR) Natural Heritage Information Centre database and the Conservation Authority website for information specific to natural areas, such as locations of environmentally sensitive areas or species.
- Interviews with available individuals having knowledge of current and/or past site activities;
- An inspection of the Phase One Property, and the activities on the adjacent properties, including and assessment of the following:
  - The site operations, processes, and waste management currently carried out on the Phase One Property.

- The neighbouring land uses (i.e. identification of environmentally sensitive neighbours, as well as an assessment of potential off-site sources of contamination);
- The source of potable water for the Phase One Property and properties within the Phase One Study Area;
- The potential presence of existing or former above-ground or underground fuel storage tanks (ASTs or USTs);
- Possible cut and fill operations that may resulted in the importation of fill material of unknown quality;
- The presence/absence of floor cracks, hydraulic hoists, elevators, sumps and drains;
- Areas suspected to contain evidence of surficial and sub-surface impacts (e.g. areas of staining);
- The potential presence of various Designated Substances and building materials including:
  - Friable and non-friable asbestos
  - Urea formaldehyde foam insulation (UFFI)
  - Chlorofluorocarbons (CFCs) in air conditioning and refrigeration equipment
  - PCB-containing materials and electrical equipment
  - Lead-based paint
  - Mould
- The presence/absence of wells, pits and lagoons, drainage sumps and floor drains, sewage and wastewater disposal pipelines; and
- General site conditions, including topography and drainage, standing water, right-of-ways, presence of underground utilities, evidence of stained or odorous soils, and stressed vegetation.

- Evaluation of the information and documentation of the results in the form of a Phase One ESA Report.

The objectives of the Phase One ESA are:

1. To assess the environmental condition of the Phase One Property to develop a preliminary determination of the likelihood that one or more contaminants have affected any land or water on, in, or under the Phase One Property;
2. To identify potentially contaminating activities within the Study Area (i.e., areas within 250 m of the Property), and to assess if APECs exist on the Phase One Property;
3. To identify the Potential Contaminants of Concern associated with the PCAs identified; and
4. To provide a basis for subsequent investigation, if required, based on the findings of the Phase One ESA.

3.0 Records Review

3.1 General

3.1.1 Phase One Study Area Determination

Based on a review of the available historical records and the observations made during the Phase One Site Reconnaissance, no heavy industrial properties or other relevant potentially contaminating activities were observed which were considered to merit expanding the Phase One Study Area. As such the Phase One Study Area was defined by a 250 metre radius around the Phase One Property boundary, in accordance with O.Reg. 153/04 (as amended).

The properties within 250 m of the Phase One Property generally consist of residential and commercial land uses. An assessment of the historical and current use of all properties within the Phase One Study Area was conducted in order to assess for the presence/absence of PCAs. A summary of the potentially contaminating activities identified within the Phase One Study Area is provided under Section 6.2. A plan depicting the Phase One Study Area limits as well as the current property uses is presented in Figure 3 and 4.

3.1.2 First Developed Use Determination

The first developed use of the Phase One Property is considered under O.Reg. 153/04 (as amended) to be either the first use of the Phase One Property in or after 1875 that resulted in the development of a building or structure on the property, or the first potentially contaminating use or activity on the Phase One Property.

The determination of the first developed use of the Phase One Property was based on a review of available aerial photographs, historical maps, fire insurance plans, city directories, and interviews. Based on the information obtained, the first developed use of the Phase One Property was for residential purposes in early to mid-1940s.

3.1.3 Fire Insurance Plans

DS requested Fire Insurance Plans (FIPs) from Verisk as part of this Phase One ESA. Fire insurance plans were prepared between 1875 and 1923 and revised in some areas until the 1970s. Available FIPs for the Phase One Property and Phase One Study Area were reviewed to confirm the building construction, occupancy, and potential fire hazardous with details regarding storage tanks, boilers, transformers, electrical room, etc. A summary of the pertinent information depicted in the FIPs is provided in the table below:

Summary of FIP Observations

Date	Location	PCA ID No.
1910	**Phase One Property**	
	Phase One Property was undeveloped.	No PCA
	Phase One Study Area	
	North, South, East and West Neighbouring Properties:	
	A road historically named Concession Road, currently called Jane Street, is located west adjacent to the Site oriented north to south. East of Jane Street was undeveloped. West of Jane Street there are roads. Further details are not available.	PCA-1
1919	**Phase One Property**	
	Phase One Property was undeveloped.	No PCA
	Phase One Study Area	
	No significant changes.	No PCA
1955 (updated in 1961)	**Phase One Property**	
	In total there were nine (9) historical residential structures and six (6) detached auto storage garages. It should be noted that two (2) of the nine (9) houses are in the same building footprint configuration as present day (1771 and 1773 Jane Street). The seven (7) historical houses that were demolished prior to mid-1960s, were located at 1739, 1745, 1747, 1753, 1757, 1761 to 1763 Jane Street. A restaurant was historically located at 1741 Jane Street, fronting Jane Street. The houses are located on the western portion of the Site, fronting Jane Street, and the garages are located on the eastern portion of the Site. Based on the age of the buildings it is likely that the houses were formerly heated with fuel oil at 1771 and 1773 Jane Street (PCA-2 and PCA-3). The listed former houses, garages and restaurant were located within the current on-Site building footprint with one (1) level of underground parking. As such, the former on-Site buildings are unlikely to cause PCA on Site. It is likely that importation of fill material of unknown was used during the construction of the current on-Site buildings and for grading purposes (PCA-4).	PCA-2 PCA-3 PCA-4
	Phase One Study Area	
	North Neighbouring Properties	
	A garage with 3 USTs was located at 1778 Jane Street, approximately 20 m northwest of the Site.	PCA-5
	South Neighbouring Properties	
	A gasoline service station with 3 USTs and oiling/greasing shop was located at 1683 Jane Street, approximately 140 m south of the Site.	PCA-6
	Grand Rapid Auto Body, a body and fender repairs business was located at 1712 Jane Street, approximately 85 m south of the Site.	PCA-7

A copy of the Verisk report is provided in Appendix C.

A Verisk Enviroscan Report was prepared for the Phase One Property. The following reports were included:

- Survey For Rating Fire-Resistive Risk Report – 1981, 1755 Jane Street Toronto ON N9N 2S5
- Siteplan Report 1981, 1755 Jane Street Toronto ON N9N 2S5

The "Survey For Rating Fire-Resistive Risk Report" indicated that the building was heated by hot water furnaces located in the penthouse. The hot water furnaces were fueled by natural gas. It was also reported that there were no gasoline or benzene or other oils kept on Site.

3.1.4 Chain of Title

A Chain of Title search was not provided by the Client at the time of the investigation. The Chain of Title will need to be obtained prior to the submission of a Record of Site Condition.

3.1.5 Environmental Reports

DS reviewed the following environmental report prepared for the Property.

- *"Preliminary Geotechnical Investigation-Proposed Buildings, 1749-1773 Jane Street, Toronto, Ontario",* prepared for Medallion Realty Holdings Ltd, prepared by SPL Consultants Ltd, dated June 29, 2015 (2015 SPL Preliminary Geotechnical Investigation)

The report was reviewed in order to assess the presence of known or suspected PCAs and APECs, and to determine if there are known soil and/or groundwater impacts on the Phase One Property and within the Phase One Study Area.

2015 SPL Preliminary Geotechnical Investigation

The 2015 geotechnical report was completed to confirm the soil conditions at 1749 to 1773 Jane Street for the development of a residential high-rise building with two (2) levels of underground parking. At the time of the investigation, that Site was an irregularly shaped parcel of land and developed with two (2) single storey residential buildings, a fourteen (14) storey residential building with one level of basement, with an attached six (6) unit commercial complex. It should be noted that the underground parking extends below the commercial units and majority of above ground parking areas. The ground to the west of this building is landscaped and the remaining areas are occupied as asphalt covered driveways and parking areas.

Three (3) boreholes (BH15-1 to BH15-3) were drilled on Site to depths ranging from 9.7 and 41.6 mbgs between May 14 and May 26, 2015. All boreholes were instrumented with monitoring wells. It should be noted that BH15-2 is a nested monitoring well.

Borehole BH15-1 was drilled on the paved area and encountered 100 mm of asphalt at the surface. A surficial topsoil layer, about 100 mm in thickness was encountered at BH15-3. Fill material encountered in the boreholes ranged in depths between 1.5 to 1.8 mbgs (PCA-8). Fill material was heterogeneous and consisted of clayey silt, sandy silt and silty sand. Underlying the fill material, the

native material consisted of silty clay till that was interbedded with layers of sand and sandy silty to silty sand. Upper cohesionless soils consisting of sandy silt, silty sand, sand and gravel were found a at depths ranging from 3.1 to 6.1 mbgs. The lower bearing cohesionless soil was found in BH15-2 below 37.5 to maximum explored depth of 41.6 mbgs.

The groundwater table in the shallow wells was found to range between 2.2 to 3.7 mbgs (June 15, 2015), with corresponding elevations of 123.6 to 124.4 masl. The groundwater table in the deep monitoring well (20 mm dia. piezometer) installed in the lower cohesionless soils was observed at a depth of 11.7 m, with a corresponding elevation of 115.3 masl. No soil or groundwater samples were collected for environmental chemical analysis.

SPL conducted a total of four (4) grain size analyses. Selected soil samples were submitted for grain size analysis:

Sample ID	% Gravel	% Sand	% Silt	% Clay
BH15-1 SS19	0	1	46	53
BH15-1 SS21	0	64	28	8
BH15-1 SS9 BH15-1 SS22	2	16 to 18	49 to 51	29 to 33

3.1.6 City Directories

City Directories for the years 1919 to 2023 were reviewed at the Metropolitan Toronto Reference Library. The Phase One Property was listed from 1955 to 2023 for several residential occupants and commercial business that occupied the Site buildings. However, none of the commercial businesses are of environmental concern and therefore are not considered a PCA. A summary of the City Directory listings reviewed has been included under Appendix B.

The following listings in the City Directories were noted by DS to be of potential environmental concern:

Historical Occupants of Potential Environmental Concern on the Phase One Property

Address	Occupant	Date Range	Inferred Property Use	PCA ID No.
1741 Jane Street (currently 1755 Jane Street)	Felstein & Bagnato Ltd	1965	Paving Company	No PCA
	This listing was cross-referenced with historical aerial photographs, fire insurance plans and Site reconnaissance, and it was concluded that this was a house/office constructed in early to mid 1940s, with paving operations and machine/equipment storage occurring off-Site.			
1773 Jane Street	Alex Auto Service Inc, used car sales	1991	Automobile Repair Facility	No PCA

Address	Occupant	Date Range	Inferred Property Use	PCA ID No.
	This listing was cross-referenced with historical aerial photographs, fire insurance plans and Site reconnaissance, and it was concluded that this was a restaurant constructed early to mid-1940s, and Site building is in the same footprint configuration as present day. Alex Auto Service was located at 1778 Jane Street, across the Street (on the west side of Jane Street) and the listing was likely associated with 1778 Jane Street.			
1771 Jane Street	Robinson Paving	1965	Paving Company	No PCA
	This listing was cross-referenced with historical aerial photographs, fire insurance plans and Site reconnaissance, and it was concluded that this was a house/office constructed in early to mid-1940s, with paving operations occurring off-Site and machine/equipment storage occurring off-Site.			

Historical Occupants of Potential Environmental Concern within Phase One Study Area

Address	Approximate Location Relative to Phase One Property	Occupant	Date Range	Inferred Property Use	PCA ID No.
1672 Jane Street	250 m south	US Tours Bus Trips	2023	Bus Tour Company	PCA-9
1676 Jane Street	225 m south	U-Haul Neighborhood Dealer	2017	Truck Rental Business	PCA-10
1677 Jane Street	225 m south	Mister Transmission	2009-2017	Auto Service and Repairs	PCA-11
1682 Jane Street	200 m south of the Site	Rose Printing	1996/97	Commercial Printing	PCA-12
1683 Jane Street	140 m south	North York Tire Auto	2017	Auto Service and Repairs	PCA-6
		Firestone Tire & Automotive	1996/97-2012		
1690 Jane Street	150 m south	North York Tire Depot	2009	Auto Service and Repairs	PCA-13
1694 Jane Street	140 m south	U-Haul Neighborhood Dealer	2023	Truck Rental Business	PCA-14
1700 Jane Street	110 m south	Canada Glass & Mirror Co.	1985/86-2000	Glass Manufacturing	PCA-15
1705 Jane Street	110 m south	U-Haul Neighborhood Dealer	2017	Truck Rental Business	PCA-16
1714 Jane Street	85 m south	Star Cleaners	1991-2017	Dry Cleaning	PCA-17
1712 Jane Street	85 m south	Grand Rapids Repair	1955	Auto Service and Repairs	PCA-7
1721 Jane Street	35 m south	U-Haul Neighborhood Dealer	2021-2023	Truck Rental Business	PCA-18

Address	Approximate Location Relative to Phase One Property	Occupant	Date Range	Inferred Property Use	PCA ID No.
1727 Jane Street	15 m south	Weston Dry Cleaners and Launderes	1960	Dry Cleaning	PCA-19
1744 Jane Street	15 m west	Keelesdale Cleaners	1955	Dry Cleaning	PCA-20
1772 Jane Street	15 m west	Mario's Auto Centre	1985/86-2023	Auto Service and Repairs	PCA-21
		B P Garage	1980	Auto Service and Repairs	
		Langley's Dick Cities Services	1960	Gasoline Service Station	PCA-22
1778 Jane Street	20 m northwest	Alex Auto Repair	1996/97-2023	Auto Service and Repairs	PCA-5
		Prestige Automobile Repairs	1985/86		
		Walter's Garage	1960-1980		
		Desmond's Service Station	1945-1955	Gasoline Service Station	PCA-23
1782 Jane Street	35 m northwest	Express Wash Coin Laundry	2009-2017	Dry Cleaning	PCA-24
		Stop Wash Coin Laundry	2009-2012		
1788 Jane Street	55 m northwest	Loyd Dry Cleaners	1955	Dry Cleaning	PCA-25
1791 Jane Street	60 m north	Industrial Specialties Co.	1955	Manufacturing	PCA-26
35 Patika Avenue	170 m west	C I Welding Ltd.	2012	Metal Works	No PCA
		According to historical aerials for 2012, the listed address is a residential house. Therefore, it's assumed that this listing is a house and operations were occurring off-site.			

3.2 Environmental Source Information

3.2.1 ERIS Report

Environmental Risk Information Services Ltd. (ERIS) is an organization that maintains and searches various government and private databases for property-related environmental information. DS contacted ERIS, an environmental database and information service company, to request a search of government and private records for information pertaining to the Phase One Property and Phase One Study Area. ERIS searched 15 Federal databases, 37 Provincial databases and 10 private databases.

A copy of the ERIS report has been provided under Appendix C. There were 12 listings for the Phase One Property and 173 listings for the Study Area as listed below:

Phase One Property

- Two (2) Boreholes
- One(1) Certificates of Approval
- One (1) ERIS Historical Searches
- Seven (7) Ontario Regulation 347 Waste Generators Summary
- One (1) Water Well Information System

Phase One Study Area

- Twelve (12) Boreholes
- Eleven (11) Certificates of Approval
- One (1) Dry Cleaning Facilities
- Fifteen (15) ERIS Historical Searches
- Three (3) List of Expired Fuels Safety Facilities
- Two (2) Fuel Storage Tank – Historic
- Fifty (50) Ontario Regulation 347 Waste Generators Summary
- Two (2) TSSA Historic Incidents
- Three (3) Fuel Oil Spills and Leaks
- Seven (7) Pesticide Register
- Six (6) Pipeline Incident
- One (1) Private and Retail Fuel Storage Tanks
- Two (2) Retail Fuel Storage Tanks
- Four (4) Scott's Manufacturing Directory
- Seventeen (17) Ontario Spills
- Thirty-seven (37) Water Well Information System

Summary of ERIS Report Findings within Phase One Study Area

Database/Date	Entry Details	PCA ID No.
Ontario Regulation 347 Waste Generator Summary (GEN)	Suncor Energy Products Partnership located at 1750 Jane Steet, approximately 15 m west of the Site, was listed for the generation of light fuels and waste oils/sludges, in 2012 to 2018 and 2020 to 2022.	PCA-27
	Petro Canada Products located at 1772 Jane Street, approximately 15 m west of the Site, was registered for generation of light fuels, between 1993 and 1998.	PCA-22

Database/Date	Entry Details	PCA ID No.
	Star Cleaners located at 1714 Jane Street, approximately 85 m south of the Site, was registered for generation of halogenated solvents between 1998 to 2013. Three Star Dry Cleaning and Laundry listed at the same above address was registered for generation of halogenated solvents between 1992 to 2001, 2015 to 2016 and 2018 to 2019.	PCA-17
Dry Cleaning Facilities (CDRY)	Star Cleaners located at 1714 Jane Street, approximately 85 m south of the Site, was registered as a dry cleaner in 2012.	PCA-17
List of TSSA Expiry Registry (EXP)	Mario's Auto Center located at 1772 Jane Street, approximately 15 m west of the Site, was registered for the following expired tanks: • Two (2) underground fiberglass tank, with a 31,850 L capacity, in 2009. • One (1) underground fiberglass tank, with a 22,730 L capacity, in 2009.	PCA-21
Private and Retail Fuel Storage Tanks (PRT)	Mario's Auto Center located at 1772 Jane Street, approximately 15 m west of the Site, was registered for one (1) retail tank, in 1996.	PCA-21
Retail Fuel Storage Tanks (RST)	Mario's Auto Center located at 1772 Jane Street, approximately 15 m west of the Site, was registered as gasoline service station. No further details are provided.	PCA-21
Fuel Storage Tank – Historic (FSTH)	Mario's Auto Center located at 1772 Jane Street, approximately 15 m west of the Site, was registered as an active retail fuel outlet gasoline station in 2007 and 2008. The following tanks were listed: • Two (2) liquid fuel single wall UST – gasoline, with a tank capacity of 31,822L, installed in 1986 • One (1) liquid fuel single wall UST – gasoline, with a tank capacity of 22,730L, installed in 1987	PCA-21
Scott's Manufacturing Directory	New Canada Glass Service Ltd. located at 1700 Jane Street, approximately 110 m south of the Site, was registered for glass products (made of purchased glass), metal doors, sash, frames, molding, trim, metal window and door manufacturing, in 1970.	PCA-15
Ontario Spills (SPL)	North York Hydro spilled 18 L of transformer oil to asphalt at 18 Marshlynn Avenue, approximately 15 m west of the Site.	PCA-28
	ESSO Petroleum Canada located at 51 Patika Avenue, approximately 75 m west of the Site, was registered for a 0.5 L furnace oil spill to concrete, in 2001.	PCA-29
	Vehicle Service Station located 1683 Jane Street, approximately 140 m south of the Site, was registered for a spill of unknown quantity of oil and gasoline mixture, in 1997.	PCA-30
	3 L of transformer fluid spilled to Black Creek at Jane Street and Queens Drive, approximately 170 m north of the Site, due to vandalism in 1992. Reported observations of diesel or oil sheen in Black Creek were noted, in 2000.	PCA-31

3.2.2 Ministry of the Environment- Freedom of Information

A request was submitted to the MECP Freedom of Information and Protection of Privacy Office (Appendix D) to determine if there were any environmental incidents or violations associated with the Phase One Property; whether any Control Orders have been issued; whether there have been any other environmental concerns associated with the property such as complaints, inspections, etc.; whether any environmental investigations have been carried out regarding the subject property; and, to determine if the Ministry's Spills Action Centre's (SAC's) files contain any reported spills that had occurred in the site vicinity. Note that the SAC's database dates back only to 1988 and many of the occurrences on file have only been reported voluntarily. In addition, the MECP was requested to search their files (all years) regarding the following parameters: air emissions, water, sewage, wastewater and pesticides.

Files pertinent to this investigation would include, though are not limited to: regulatory permits, records; material safety data sheets; underground utility drawings; inventories of chemicals, chemical usage and chemical storage areas; inventory of aboveground storage tanks and underground storage tanks; monitoring data, including that done at the request of the MECP; historical and current waste management, receiver and generator records; process, production and maintenance documents related to areas of potential environmental concern; spills/discharge records; emergency and contingency plans; environmental audit reports; site plan of facility showing areas of production and manufacturing.

A response has been received from the MECP. On July 3, 2025. No pertinent information was identified.

3.2.3 Technical Standards and Safety Authority

The Technical Standards and Safety Authority (TSSA) maintain records related to storage tanks for petroleum related products. The TSSA was contacted to review records related to the Property and Study Area. The following addresses were included in the inquiry:

- 1773 Jane Street, Toronto
- 1771 Jane Street, Toronto
- 1755 Jane Street, Toronto
- 1749 Jane Street, Toronto
- 1778 Jane Street, Toronto
- 1772 Jane Street, Toronto
- 1791 Jane Street, Toronto
- 1750 Jane Street, Toronto

According to the response received on June 2, 2025 from TSSA, the following records were identified within the properties located in the Study Area:

Summary of TSSA records

Inst Number	Context	Address	Status	PCA ID No.
11045011	FS Liquid Fuel Tank	1772 Jane Street	Expired	PCA-2
11045030	FS Liquid Fuel Tank		Expired	PCA-2
11045045	FS Liquid Fuel Tank		Expired	PCA-2

Inst Number	Context	Address	Status	PCA ID No.
43953147	FS Cylinder Exchange		Active	PCA-2
9486648	FS Gasoline Station- Full Serve		Expired	PCA-2

A copy of the correspondence with the TSSA has been appended under Appendix D.

3.2.4 Areas of Natural and Scientific Interest

The Natural Heritage Areas database published by the Ministry of Natural Resources (MNR) was reviewed to identify the presence/absence of areas of natural significance including provincial parks, conservation reserves, areas of natural and scientific interest, wetlands, environmentally significant areas, habitats of threatened or endangered species, and wilderness areas.

A review of the databases indicated no areas of natural or scientific interest within the Phase One Property or within 30 metres of the Phase One Property. A Natural Heritage System is located 70 m northeast of the Site.

The Phase One Property is located within a residential and commercial area, and does not contain any grassland, cropland, hayfields, swamps, or woodlands on/or within 30 m of the Site. According to the Ontario Hydro Network (OHN) – watercourse online mapping system, Black Creek is located 100 m east of the Site.

No science-based assessment of potential species at risk or species habitat was conducted as part of Phase One ESA.

The City of Toronto Official Plans and Ministry of Ontario Greenbelt Plans were reviewed as part of this assessment and the following table summarizes the relevant environmental information provided in the reviewed maps.

Database/Date	Entry Details
City of Toronto Map 9: Natural Heritage System	A Natural Heritage System is located 70 m northeast of the Phase One Property.
City of Toronto Map 12A: Environmental Significant Areas	Phase One Property and Phase One Study Area are not within environmental significant areas.
Ministry of Ontario The Greenbelt: Plan of the Boundary of the 2022 Urban River Valley Area	The Phase One Property is located 70 m northeast from an urban river valley area regulated limit.
Ministry of Ontario Schedule 1: Greenbelt Areas	The Phase One Property is located 70 m northeast of the Urban River Valleys.

If required, an environmental specialist could be retained to undertake a site-specific ecological assessment, however at this time further assessment is not warranted.

3.2.5 Toronto Region and Conservation Authority (TRCA)

The TRCA online regulation map was accessed June 3, 2025. It indicated that the Phase One Property was not regulated by the TRCA. The Phase One Property and Study Area are located within the Humber River Watershed.

3.3 Physical Setting Sources

3.3.1 Aerial Photographs and Historical Mapping

Aerial photographs for the years 1939, 1947, 1954, 1967, 1971, 1973, 1983 and 1992 were obtained from the City of Toronto Online Mapping and reviewed as part of this assessment. The County Atlas of York was reviewed in order to provide a more historical image from the year 1878. Google Earth was used to review satellite imagery from the years 2002, 2012, 2018 and 2023. A summary of pertinent information obtained from the aerial photographs reviewed is presented in the Table below. Copies of the County Atlas map, aerial photographs and satellite images have been appended under Appendix E.

Summary of Aerial Photographs and Satellite Imagery

Location	Observations	PCA ID No.
1878		
Phase One Property	According to the York County Atlas from 1878, the Phase One Property appears to be an undeveloped rural parcel of land owned by John E Bull. Further details are not provided.	No PCA
North, South, Esat and West of the Site	The adjacent properties appear to be vacant and/or used for agricultural purposes. Black Creek is located 100 m east of the Site.	No PCA
1939		
Phase One Property	The Phase One Property is undeveloped and appears to be used for agricultural purposes.	No PCA
North, South, East, West of the Site	The properties located north of the Site are developed and are inferred to be used for commercial and residential purposes. A road named Jane Street is located west adjacent to the Site. Properties on the west side of Jane Street appear to be undeveloped and inferred to be used for agricultural purposes. Southwest of the Site is developed with inferred commercial and residential land use. South and east of the Site is an undeveloped parcel of land, inferred to be used for agricultural purposes. Black Creek is located approximately 100 m east of the Site.	No PCA
1947		
Phase One Property	The Phase One Property appears to be developed with inferred residential structures and associated detached auto storage garages fronting Jane Street. The houses and associated garages are in similar configuration to the 1955 FIP.	PCA-1 PCA-2 PCA-3 PCA-4
	It should be noted that there are no available historical aerials between 1939 and 1947 for the Phase One Property and Phase One Study Area. The listing was cross-referenced with historical aerial photographs, fire insurance plans, city directories and Site	

Location	Observations	PCA ID No.
	reconnaissance. The first listing for the Phase One Property in the city directory is in 1955 for residential purposes. It was concluded that the historical on-Site structures were built in the early to mid-1940s.	
North, South, East, and West of the Site	Further residential development to the north and west of the Site. South and east of the Site remains undeveloped.	No PCA
1954		
Phase One Property	No significant changes. The Phase One Property continues to be developed with residential structures and associated detached auto storage.	No PCA
North, South, East, and West of the Site	West, northwest and southwest of the Site, rows of inferred houses were developed. South of the Site inferred commercial buildings were developed.	No PCA
1967		
Phase One Property	No significant changes. An inferred restaurant is developed in the southwest corner of the Site. According to the city directory listing, Ron's Fish and Chips was listed from 1955-1965.	No PCA
North, South, East, and West of the Site	Residential neighborhoods are developed north, south, east and west of the Phase One Property. A road in similar configuration to Marshlynn Avenue was located south adjacent to the Site.	No PCA
1971		
Phase One Property	No significant changes.	No PCA
North, South, East, and West of the Site	No significant changes. An inferred residential high-rise structure is developed north of the Site.	No PCA
1973		
Phase One Property	Seven (7) of the nine (9) historical residential structures and six (6) detached auto storage garages appear to be demolished. A structure in similar configuration to the present-day 14-storey apartment building and commercial units is centrally located on-Site. A paved parking lot is located north and south of the high-rise apartment building. Two (2) structures are present on the northern portion of the Site in similar configuration to the present-day structures located at 1771 and 1773 Jane Street.	PCA-4
	It should be noted that there are no available historical aerials for year 1972 for the Phase One Property and Phase One Study Area. The listing was cross-referenced with historical aerial photographs, fire insurance plans, city directories and Site reconnaissance and it was concluded that the 14-storey apartment building was constructed in 1972.	
North, South, East, and West of the Site	No significant changes.	No PCA
1983, 1992, 2002, 2012, 2018, 2023		
Phase One Property	No significant changes.	No PCA
North, South, East and West of the Site	No significant changes. Two (2) additional inferred residential high-rise buildings were developed north of the Site in 1983.	No PCA

3.3.2 Topography, Hydrology, Geology

The topography of the Phase One Property is generally flat, with a surface elevation of 127 metres above sea level (masl). The topography within the Phase One Study Area generally slopes to the east/northeast, towards Black Creek located 100 m east of the Site. The topography in the Phase One

Study Area also slopes to the southeast towards the meandering Black Creek and Lake Ontario, located 8 km south of the Site. According to the SPL 2015 Geotechnical Investigation, the groundwater on-Site ranged between 2.2 and 3.7 mbgs, with respective elevations of 123.6 and 124.4 masl. The deep well (BH15-2 D) had a groundwater depth of 11.7 mbgs and an elevation of 115.3 masl. The shallow groundwater flow direction within the Phase One Study Area is inferred to be east/southeast towards Black Creek.

The Site is situated within a sand plain physiographic region. The surficial geology in the vicinity of the Site is described as "coarse-textured glaciolacustrine deposits" with sand, gravel, minor silt and clayforeshore and basinal deposits. The underlying bedrock within the area generally consists of shale, limestone, dolostone, siltstone, Georgian Bay Formation; Blue Mountain Formation; Billings Formation; Collingwood Member; Eastview Member. Based on a review of the Ministry of Energy, Northern Development and Mines Bedrock Topography and Overburden Thickness database, the bedrock in the Phase One Study Area is anticipated to be encountered at a depth of approximately 20 mbgs. It should be noted that the concurrent DS 2025 geotechnical and hydrogeological investigations included the advancement of two (2) boreholes to depths of approximately 46.3 and 49.4 mbgs and bedrock was not encountered within the termination depth.

3.3.3 Fill Materials

Historically, there were a total there were nine (9) historical residential structures and six (6) detached auto storage garages on-Site in the mid-1940s, that were demolished prior to 1960s, when a 14-storey apartment building was constructed with one level of underground parking. It is likely that importation of fill material of unknown quality was used during the construction of former and current on-Site buildings and for grading purposes (PCA-4). It should be noted that the previous SPL 2015 Geotechnical Investigation report identified fill material ranging from 1.5 to 1.8 mbgs. It is likely that the fill material located within the footprint of the underground parking garage has been removed during the parking garage construction. The concern of fill of unknown quality applies to the remaining areas of the Phase One Property, excluding the underground parking garage.

Historic investigations identified fill materials on the Phase One Property (SPL 2015 Geotechnical Investigation). Fill material was identified in all three (3) boreholes ranging between 1.5 to 1.8 mbgs. Fill material was heterogeneous and consisted of clayey silt, sandy silt and silty sand (PCA-8).

3.3.4 Water Bodies and Areas of Natural Significance

During the site visit, standing water was not observed on the Property. The nearest water body to the Phase One Property is Black Creek, located approximately 100 m east of the Site. Environmentally Significant Areas are natural areas that have been identified as significant and worthy of protection on three criteria – ecology, hydrology and geology. Municipalities have developed policies to protect natural heritage features. The Region uses Environmentally Significant Areas as a means to protect

natural areas like wetlands, fish habitat, woodlands, habitat of rare species, groundwater recharge and discharge areas, and Areas of Natural and Scientific Interest.

The Property includes no Areas of Natural Significance. Additional details are provided in Section 3.2.4 above. The Phase One Study Area includes a natural heritage system approximately 70 m northeast of the site, an unevaluated wetland approximately 120 m north of the site, and Greenbelt Land use designation 45 m east of the site.

3.3.5 Well Records

Water well records were searched as part of the ERIS database query. One (1) monitoring well record was available for the Phase One Property and thirty-seven (37) monitoring wells were listed for the Study Area. No domestic wells were listed in the database within the Study Area.

Additional detail regarding the well construction, lithology encountered, and well purpose is included in the ERIS report provided under Appendix C.

During the Site Reconnaissance completed on May 27, 2025, a total of five (5) monitoring wells were observed on-Site. Four of the monitoring wells correspond with the geotechnical investigation completed by SPL in 2015. One monitoring well is located on the southern portion of the parking lot near the commercial units, and no further borehole/monitoring well information is available.

3.4 Site Operating Records

No operating records were available.

4.0 Interviews

The following persons with the knowledge of the Property were interviewed or provided the required information.

Summary of Personnel Interviewed

Date	Name	Position	Method of Interview
September 30, 2025	Luka Kot	Development Manager Medallion Realty Holdings	Phase One Questionnaire

4.1 Interviewee Rationale

At the time of this investigation, Medallion Realty Holdings is the owner of the Phase One Property. Luka Kot is the current development manager, and is considered to be the most knowledgeable person regarding the historical Site operations. The Phase One Interview was conducted by Marina Nadj, MES, GIT under the supervision of Teresa Weatherhead, LEL, QP_{ESA}.

4.2 Results of Interview

The following summarizes the information that was provided by the site representative, based on their knowledge of Site activities.

- The Phase One Property is owned by Medallion Realty Holdings. The date the current owner acquired the property is not provide nor is the previous owner information.
- The Phase One Property was occupied by one (1) 14 storey apartment building with six (6) commercial units located on the main floor, with one (1) level of underground parking. An asphalt parking lot is located south and north of the apartment building. The apartment building and ground level parking is located centrally on-Site and occupies majority of the Phase One Property. One (1) house and one (1) derelict bakery were located on the northern portion of the Site.
- L. Kot was not aware of any spill on the Phase One Property.
- L. Kot was not aware of any fuel oil or other tanks present on the Property.
- L. Kot was not aware of any vehicle servicing, hazardous materials, bulk chemical storage or fires having taken place on the property.
- L. Kot not aware of any fill materials being placed on the Property.
- L. Kot was not aware of any incidents that have occurred on the property or adjoining properties that may affect the environmental quality of the property.
- No soil or ground water remediation has been completed at the Property to L. Kot ‘s knowledge.
- No information was available for the Property if cited for violations of any provincial or federal environmental laws or regulations.
- No information for individuals with additional knowledge of the Property was available to interview.

DS compared the information obtained through the Phase One Interview with the information obtained from the historical records for the Site. The information provided by the interviewee was corroborated by the historical records, as such DS has no concern regarding the accuracy of the information provided.

5.0 Site Reconnaissance

5.1 General Requirements

Site Reconnaissance Notes

Information	Details
Date of Investigation:	May 27, 2025
Time of Investigation:	3 pm
Weather Conditions:	Sunny, 20°C
Duration of Investigation:	2 hours
Facility Operation:	**1749 Jane Street** Moonshine Hair Salon, Anne Pharmacy, Afrocan Family Depot Food, Dollar Mart **1755 Jane Street** Janmount Towers-14-storey apartment building with one (1) level of underground parking **1771 Jane Street:** residential house **1773 Jane Street**: Latin Bakery – derelict
Name and Qualification of Person(s) conducting the assessment	Marina Nadj, MES, under the supervision of Teresa Weatherhead, LEL, QP_{ESA}
Limitations	Derelict bakery at 1773 Jane Street was not accessed, due to no available entrance keys.

5.2 Specific Observations at Phase One Property

The Site Reconnaissance involved a visual assessment of the Phase One Property for the purpose of identifying potential PCAs, and associated APECs. Photographs of the Phase One Property were taken at the time of the Site Reconnaissance, and have been included under Appendix F.

Summary of Site Reconnaissance Observations

General		
i.	Description of structures and other improvements, including the number and age of buildings	One (1) 14-storey apartment building with six (6) ground floor commercial units and one (1) level of underground parking is located centrally on-Site, with an approximate footprint of 2,300 m^2. An asphalt parking lot encompassed the southern and northern portion of the Site. Two (2) houses, each with an approximate footprint of 100 m^2, a brick stucco exterior, and single level of basement were present on the northern portion of the Site.
ii.	Description of the number, age and depth of below-ground structures	The apartment building had one (1) level of underground parking. The house located at 1771 Jane Street, had one level basement. The house located 1773 Jane Street, was not accessible.

iii.	Details of all tanks, above and below ground at the Phase One Property, including the material and method of construction of the tank, tank age, tank contents, tank volume, and whether in use or not	None observed at the time of the investigation.
iv.	Potable and non-potable water sources	Potable water is supplied by the municipality to the Site. There were no potable water wells observed on the Site.
Underground Utilities and Corridors		
i.	Type and location of underground utility and service corridors, such as sewer, water, electrical or gas lines located on, in or under the Phase One Property.	It is anticipated that underground utilities and corridors exist under the Phase One Property to connect the buildings to municipal water, wastewater, hydro and supplied utilities; however, the exact locations were not known at the time of this investigation. Underground utilities on the Phase One Property and on adjacent properties may affect migration of off-site contaminants (if present) to the Phase One Property.
Features of Structures and Buildings at the Phase One Property		
i.	Entry and exit points	The apartment building had one (1) main entry/exit access point from Jane Street, located on the west side of the Property. The commercial units had one (1) main entry/exit access point from the parking lot, located on the east side of the Property. The house had two (2) main entry/exit access, one (1) on the front of the house, and the second on the northern side of the house, both access from Jane Street. The derelict bakery had one (1) main entry/ exit access point from Jane Steet, located on the west side of the Property. A secondary access was at the back of the derelict bakery.
ii.	Details of existing and former heating systems, including type and fuel source	The Site buildings were heated by natural gas fired forced air furnaces.
iii.	Details of cooling systems, including type and fuel source, if any	Some apartment units and the house had window-mounted AC units.
iv.	Details of any drains, pits and sumps, including their current use, if any, and former use	A drain and sump pump was observed during the Site Reconnaissance in the basement of the apartment building and the house. No staining or odours were observed at the time of the Site Reconnaissance.
v.	Details of any unidentified substances	No evidence of unidentified substances that could influence the environmental conditions at the Site was observed.
vi.	Details, including locations of stains or corrosion on floors other than from water, where located near a drain, pit, sump, crack or other potential discharge location	None observed during the Site Reconnaissance.

vii.	Details, including locations, of current and former wells, including all wells described or defined in or under the *Ontario Water Resources Act* and the *Oil, Gas and Salt Resources Act*	Five (5) monitoring wells were observed on the Site.
viii.	Details of sewage works, including their location	The Site is serviced by municipal sanitary sewers, located along Jane Street, located west of the Site.
ix.	Details of ground surface, including type of ground cover, such as grass, gravel, soil or pavement	The central portion of the Site contains the concrete foundation of the apartment building and the underground parking garage. The apartment building is surrounded by an asphalt parking lot. The northern portion of the Site consists of the house and derelict bakery with grass-covered backyards extending to the east.
x.	Details of current or former railway lines or spurs and their locations	None observed.
xi.	Areas of stained soil, vegetation or pavement	None observed during the Site Reconnaissance.
xii.	Stressed vegetation	None observed during the Site Reconnaissance.
xiii.	Areas where fill and debris materials appear to have been placed or graded	None observed during the Site Reconnaissance.
xiv.	Potentially contaminating activity	The house and derelict bakery were construed between early to mid 1940s. Based on the age of the buildings it is likely that the buildings were formerly heated with fuel oil (PCA-2, PCA-3). It should be noted that seven (7) out of nine (9) historical house structures were demolished in early 1970s and an apartment building with one (1) of underground parking was constructed within the footprint of the seven (7) historical houses, plus the restaurant. Importation of fill material of unknown quality is possible for grading and backfill purposes during construction and demolition of Site buildings (PCA-4) Parking lots, driveways and walkways were identified surrounding the on-site building and parking structure; therefore, it inferred that application of de-icing agents may have been utilized in the parking lot for safety purposes during the winter seasons. Based on paragraph 1 of section 49.1 of O.Reg.153/04, the application of salt for safety and de-icing purposes is exempt from leading to an Area of Potential Environmental Concern on the Property
xv.	Details of any unidentified substances found at the Phase One Property	None observed during the Site Reconnaissance.
Enhanced Investigation Property		

Where subsection 13(3) applies to the Phase One Property, provide the documentation referred to in subsection 13(3)	In order to be classified as an enhanced investigation property, the Phase One Property must be used or have been used in whole or in part for any of the following uses: ◆ Any industrial use ◆ As a garage ◆ As a bulk liquid dispensing facility, including a gasoline outlet ◆ For the operation of dry cleaning equipment There is no indication in the historical records of the Phase One Property being used for any of the aforementioned uses, and as such the Phase One Property is not considered an enhanced investigation property.
Hazardous Materials	
The section below notes the applicability of the presence of hazardous materials on the Phase One Property. As part of this interpretation the age of the structures on the Site is relevant. It is hereby noted that, the residential house and the derelict bakery were constructed on the Site early to mid 1940s and are currently on-Site. The 14-storey apartment building, plus the commercial units, were constructed in 1972 and are currently on-Site.	
i. Asbestos containing materials	Asbestos and asbestos-containing materials were used as insulation and construction materials until being phased out in the late 1970s. Based upon the age of construction of the site buildings, it is possible that asbestos and asbestos-containing materials are present on the Site*.
ii. Lead containing materials	The use of lead as a base in paints and plumbing solder was phased out in the late 1970s. Based upon the age of construction of the site buildings, it is possible that lead-containing materials are present on the Site*.
iii. PCB materials and equipment	Prior to the mid- to late-1970s, PCBs were used in the manufacture of electrical equipment, including fluorescent light ballasts. Based upon the age of construction of the site buildings, it is possible that PCB-containing materials are present on the Site*.
iv. Urea Formaldehyde Foam Insulation (UFFI)	Urea-Formaldehyde Foam Insulation (UFFI) was introduced in Canada during the 1970s and was banned in 1980. Based upon the age of construction of the site buildings, it is possible that UFFI-containing materials are present on the Site*.
v. Ozone Depleting Substances (ODS)	Equipment containing ODS was limited to the air-conditioning units observed at the site buildings.
vi. Herbicides and Pesticides	During the Site inspection no material containing herbicides or pesticides were observed to be stored at the building.
vii. Mould	None observed.
viii. Mercury	Mercury could be present in fluorescent lights observed in the building. Mercury with small quantity could be present inside the electrical switches or thermostats observed in the units of the building.

ix.	acrylonitrile, arsenic, benzene, coke oven emissions, ethylene oxide, isocyanates, silica, vinyl chloride	These items were not observed at the Phase One Property. The presence of the special attention items in building/construction materials were investigated through observations made by DS and does not necessarily imply adverse impact to the environmental condition of the property.
x.	Pits and Lagoons	None observed.
xi.	Air Emissions	None observed.
xii.	Radioactive Materials & Radon Gas	Based on local geological formations in the area, it is unlikely the Site is exposed to natural sources of radiation such as radon or uranium. Manmade sources of radioactive materials were not observed during the Site inspection. A radiometric survey was not conducted during this investigation.

*A Designated Substance Survey (DSS) is recommended for completion prior to any redevelopment of the building in order to further assess if the above-listed hazardous materials are present.

5.3 Written Description of Investigation

The site reconnaissance included a visual inspection of the Phase One Property to confirm current conditions and identify any current land uses or activities, which may have or may cause environmental impacts. The adjoining and neighbouring properties were observed from the Phase One Property and publicly accessible areas.

At the time of the Site Reconnaissance the property use within the Phase One Study Area was primarily residential and commercial, as described in the table below:

Summary of Site Reconnaissance Observations within Phase One Study Area

Observation	Details
Phase One Property	The Phase One Property was occupied by one (1) 1- storey apartment building with six (6) commercial ground floor units and one (1) level of underground parking is located centrally on-Site. An asphalt parking lot encompassed the southern and northern portions of the Site. One (1) house and one (1) derelict bakery were located on the northern portion of the Site. The orientation of the Site Building is depicted on Figure 2A.
North Adjacent Property	The north adjacent Property was occupied by a high-rise residential building at the time of the site reconnaissance.
East Adjacent Property	The east adjacent Property was occupied by low rise detached residential houses at the time of the site reconnaissance.
South Adjacent Property	The south adjacent Property was occupied by Marshlynn Avenue. On the south side of Marshlynn Avenue, the properties were used for commercial and residential purposes.
West Adjacent Property	The west adjacent Property was occupied by Jane Street. Properties on the west side of Jane Street were used for commercial purposes at the time of the site reconnaissance.
Water Bodies	Black Creek is located 100 m east of the Site.

Observation	Details
Areas of Natural Significance	A Natural Heritage System is located 70 m northeast of the Site.

Photographs illustrating the Phase One Property and adjacent properties are provided under Appendix F. A summary of the PCAs observed is provided in Section 6.2.

6.0 Review and Evaluation of Information

6.1 Current and Past Uses

Current and past uses of the Phase One Property have been inferred based on the information provided in the aerial photographs, city directories and conversations with the site representative. A Chain of Title search back to Crown and a Current and Past Uses table for the Phase One Property has not been prepared at this time and will be required as part of the Record of Site Condition process.

6.2 Potentially Contaminating Activity

According to the Table 2, Schedule D, O. Reg. 153/04 as amended, potentially contaminating activities are activities that may be contributing to areas of potential environmental concern on the Phase One Property. The PCAs identified on the Phase One Property and within the Phase One Study Area are summarized in the table below and are illustrated on Figure 4.

Summary of PCAs

PCA ID No.	PCA Description (Per. Table 2, Schedule D of O.Reg. 153/04)	Description	Contributing to APEC (Y/N)
PCA-1	#N/S: Applied de-icing agents	On-Site: The property was bounded by Jane Street to the west and Marshlynn Avenue to the south, with accompanying sidewalks. The Property also featured paved areas north of the residential apartment building and south of the apartment building, near the commercial units. During the winter months, a substance (salt) is applied to the road, parking areas and sidewalks for safety purposes. Source: Site Reconnaissance	Yes – APEC 1
PCA-2	#28: Gasoline and Associated Products Storage in Fixed Tanks	On-Site: Based on the age of the building it is likely that the building was formerly heated with fuel oil at 1773 Jane Street. Source: FIPs, Site Reconnaissance	Yes – APEC 2
PCA-3	#28: Gasoline and Associated Products Storage in Fixed Tanks	On-Site: Based on the age of the building it is likely that the building was formerly heated with fuel oil at 1771 Jane Street. Source: FIPs, Site Reconnaissance	Yes – APEC 3

PCA ID No.	PCA Description (Per. Table 2, Schedule D of O.Reg. 153/04)	Description	Contributing to APEC (Y/N)
PCA-4	#30: Importation of Fill Material of Unknown Quality	On-Site: Importation of fill material of unknown quality is possible for grading and backfill purposes during construction of Site buildings Source: FIPs, Historical Aerials	Yes- APEC 4
PCA-5	#28: Gasoline and Associated Products Storage in Fixed Tanks	Off-Site: A garage with 3 underground storage tanks (USTs) was located at 1778 Jane Street, approximately 20 m northwest of the Site. Source: 1961 FIPs, CDs	Yes – APEC 7
PCA-6	#28: Gasoline and Associated Products Storage in Fixed Tanks	Off-Site: A gasoline service station with 3 USTs and oiling/greasing shop was located at 1683 Jane Street, approximately 140 m south of the Site. Source: 1961 FIPs, CDs	No – due to distance and downgradient orientation
PCA-7	#27: Garages and Maintenance and Repair of Railcars, Marine Vehicles and Aviation Vehicles	Off-Site: Grand Rapid Auto Body, a body and fender repairs business was located at 1712 Jane Street, approximately 85 m south of the Site Source: 1961 FIPs, CDs	No – due to distance and downgradient orientation
PCA-8	#N/S: Historical Soil Quality	On-Site: The previous geotechnical investigation completed by SPL in 2015, identified fill material at the property ranging between 1.5 to 1.8 mbgs. Source: SPL 2015 Geotechnical Investigation	Yes – APEC-5
PCA-9	#27: Garages and Maintenance and Repair of Railcars, Marine Vehicles and Aviation Vehicles	Off-Site: A bus tour company was located at 1672 Jane Street, approximately 250 m south of the Site. Source: CDs	No – due to distance and downgradient orientation
PCA-10	#27: Garages and Maintenance and Repair of Railcars, Marine Vehicles and Aviation Vehicles	Off-Site: A truck rental business was located at 1676 Jane Street, approximately 225 m south of the Site. Source: CDs	No – due to distance and downgradient orientation
PCA-11	#27: Garages and Maintenance and Repair of Railcars, Marine Vehicles and Aviation Vehicles	Off-Site: An auto service and repair shop was located at 1677 Jane Street, approximately 225 m south of the Site. Source: CDs	No – due to distance and downgradient orientation
PCA-12	#31: Ink Manufacturing, Processing and Bulk Storage	Off-Site: A commercial printing business was listed at 1682 Jane Street, approximately 200 m south of the Site, in 1996/97.	No – due to distance and downgradient orientation

PCA ID No.	PCA Description (Per. Table 2, Schedule D of O.Reg. 153/04)	Description	Contributing to APEC (Y/N)
		Source: CDs	
PCA-13	#27: Garages and Maintenance and Repair of Railcars, Marine Vehicles and Aviation Vehicles	Off-Site: An auto service and repair shop was located at 1690 Jane Street, approximately 150 m south of the Site. Source: CDs	No – due to distance and downgradient orientation
PCA-14	#27: Garages and Maintenance and Repair of Railcars, Marine Vehicles and Aviation Vehicles	Off-Site: A truck rental business was located at 1694 Jane Street, approximately 140 m south of the Site. Source: CDs	No – due to distance and downgradient orientation
PCA-15	#29: Glass Manufacturing	Off-Site: A glass manufacturing business was located at 1700 Jane Street, approximately 110 m south of the Site. Source: CDs	No – due to distance and downgradient orientation
PCA-16	#27: Garages and Maintenance and Repair of Railcars, Marine Vehicles and Aviation Vehicles	Off-Site: A truck rental business was located at 1705 Jane Street, approximately 110 m south of the Site. Source: CDs	No – due to distance and downgradient orientation
PCA-17	#37: Operation of Dry Cleaning Equipment (where chemicals are used)	Off-Site: A dry cleaners was located at 1714 Jane Street, approximately 85 m south of the Site. Source: CDs, ERIS	No – due downgradient orientation
PCA-18	#27: Garages and Maintenance and Repair of Railcars, Marine Vehicles and Aviation Vehicles	Off-Site: A truck rental business was located at 1721 Jane Street, approximately 35 m south of the Site. Source: CDs	No – due to downgradient orientation
PCA-19	#37: Operation of Dry Cleaning Equipment (where chemicals are used)	Off-Site: A dry cleaners was located at 1727 Jane Street, approximately 15 m south of the Site. Source: CDs	Yes – APEC 8
PCA-20	#37: Operation of Dry Cleaning Equipment (where chemicals are used)	Off-Site: A dry cleaners was located at 1744 Jane Street, approximately 15 m west of the Site. Source: CDs	Yes – APEC 8
PCA-21	#27: Garages and Maintenance and Repair of Railcars, Marine Vehicles and Aviation Vehicles	Off-Site: An auto service and repair shop was located at 1772 Jane Street, approximately 15 m west of the Site. Source: CDs	Yes – APEC 6
PCA-22	#28: Gasoline and Associated Products Storage in Fixed Tanks	Off-Site: A gasoline service station was located at 1772 Jane Street, approximately 15 m west of the Site.	Yes – APEC 6

PCA ID No.	PCA Description (Per. Table 2, Schedule D of O.Reg. 153/04)	Description	Contributing to APEC (Y/N)
		Source: CDs, ERIS	
PCA-23	#28: Gasoline and Associated Products Storage in Fixed Tanks	Off-Site: A gasoline service station was located at 1778 Jane Street, approximately 20 m northwest of the Site. Source: CDs	Yes – AEPC 7
PCA-24	#37: Operation of Dry Cleaning Equipment (where chemicals are used)	Off-Site: A dry cleaners was located at 1782 Jane Street, approximately 35 m northwest of the Site. Source: CDs, Site Reconnaissance	Yes – APEC 7
PCA-25	#37: Operation of Dry Cleaning Equipment (where chemicals are used)	Off-Site: A dry cleaners was located at 1788 Jane Street, approximately 55 m northwest of the Site. Source: CDs	Yes – APEC 7
PCA-26	#33: Metal Treatment, Coating, Plating and Finishing	Off-Site: Industrial Specialties Co. was located at 1791 Jane Street, approximately 60 m north of the Site. Source: CDs	Yes – APEC 7
PCA-27	#28: Gasoline and Associated Products Storage in Fixed Tanks	Off-Site: Suncor Energy Products Partnership located at 1750 Jane Steet, approximately 15 m west of the Site, was listed for the generation of light fuels and waste oils/sludges. Source: ERIS	Yes – APEC 6
PCA-28	#N/S: Historic Spill	Off-Site: North York Hydro spilled 18 L of transformer oil to asphalt at 18 Marshlynn Avenue approximately 15 m west of the Site. Source: ERIS	No – due to consideration of limited mobility and of limited volume of potential contaminants.
PCA-29	#N/S: Historic Spill	Off-Site: ESSO Petroleum Canada located at 51 Patika Avenue, approximately 75 m west of the Site, was registered for a 0.5L furnace oil spill to concrete, in 2001. Source: ERIS	No – due to consideration of limited mobility and of limited volume of potential contaminants.
PCA-30	#N/S: Historic Spill	Off-Site: Vehicle Service Station located 1683 Jane Street, approximately 140 m south of the Site, was registered for a spill of unknown quantity of oil and gasoline mixture, in 1997. Source: ERIS	No – due to distance and downgradient orientation

PCA ID No.	PCA Description (Per. Table 2, Schedule D of O.Reg. 153/04)	Description	Contributing to APEC (Y/N)
PCA-31	#N/S: Historic Spill	Off-Site: 3 L of transformer fluid spilled to Black Creek at Jane Street and Queens Drive, approximately 170 m north of the Site, due to vandalism in 1992. Reported observations of diesel or oil sheen in Black Creek were noted, in 2000. Source: ERIS	No – due to distance from the Site

N/S - not specified in Table 2, Schedule D, of O.Reg. 153/04

6.3 Areas of Potential Environmental Concern

The table of APECs presented in the form as approved by the Director is provided below, in accordance with clause 16(2)(a), Schedule D, O.Reg. 153/04.

Summary of APECs

APEC	Location of APEC	PCA	Location of PCA	Contaminants of Potential Concern	Media Potentially Impacted
APEC-1	Entire Property, with the exception of the building footprints, and the grassed northeast corner	#N/S: De-icing agents*	On-Site PCA-1	EC, SAR	Soil
				Na, Cl-	Groundwater
APEC-2	Northwestern portion of the Property	#28: Gasoline and Associated Products Storage in Fixed Tanks	On-Site PCA-2	PHCs, BTEX, PAHs	Soil and groundwater
APEC-3	Northwestern portion of the Property	#28: Gasoline and Associated Products Storage in Fixed Tanks	On-Site PCA-3	PHCs, BTEX, PAHs	Soil and groundwater
APEC-4	Entire Property, excluding the footprint of the underground parking garage	#30: Importation of Fill Material of Unknown Quality	On-Site PCA-4	Metals, As, Sb, Se, B-HWS, CN-, Cr (VI), Hg, low or high pH, PAHs	Soil
APEC-5	Entire Property, excluding the footprint of the underground parking garage	#N/S: Historical Soil Quality	On-Site PCA-8	Metals, As, Sb, Se, B-HWS, CN-, Cr (VI), Hg, low or high pH, PAHs	Soil
APEC-6	Western portion of the Property	#28: Gasoline and Associated Products Storage in Fixed Tanks	Off-Site PCA-5	PHCs, BTEX, PAHs	Groundwater
		#27: Garages and Maintenance and Repair of Railcars, Marine Vehicles and Aviation Vehicles	Off-Site PCA-21	PHCs, VOCs, BTEX, PAHs	

APEC	Location of APEC	PCA	Location of PCA	Contaminants of Potential Concern	Media Potentially Impacted
		#28: Gasoline and Associated Products Storage in Fixed Tanks	Off-Site PCA-22 PCA-27	PHCs, BTEX, PAHs	
APEC-7	Northwestern portion of the Property	#28: Gasoline and Associated Products Storage in Fixed Tanks	Off-Site PCA-23	PHCs, BTEX, PAHs	Groundwater
		#37: Operation of Dry Cleaning Equipment (where chemicals are used)	Off-Site PCA-24 PCA-25	VOCs	
		#33: Metal Treatment, Coating, Plating and Finishing	Off-Site PCA-26	Metals, As, Sb, Se, CN-, Cr (VI), Hg, PAHs, BTEX	
APEC-8	Southwestern portion of the Property	#37: Operation of Dry Cleaning Equipment (where chemicals are used)	Off-Site PCA-19 PCA-20	VOCs	Groundwater

N/S - not specified in Table 2, Schedule D, of O.Reg. 153/04
* - The area is subject to application of de-icing salts for road safety purposes. Per Section 49.1 (1) of O.Reg. 407/19, published December 4, 2019 "*If an applicable site condition standard is exceeded at a property solely because of one of the following reasons, the applicable site condition standard is deemed not to be exceeded for the purpose of Part XV.1 of the Act*": "*…that a substance has been applied to surfaces for the safety of vehicular or pedestrian traffic under conditions of snow or ice or both*". Any potential impacts associated with EC and/or SAR in soil, and sodium and/or chloride in groundwater will be deemed not to exceed the MECP Site Conditions Standards for the area identified in APEC-1.

The rationale used by the QP in assessing the information obtained through the course of this investigation to determine whether PCAs exist and/or are contributing to an APEC on the Phase One Property has been provided in the proceeding sections. In general the potential for a PCA to be contributing to an APEC on the Phase One Property was assessed using the likelihood of the source to contaminate the Phase One Property, the possibility of the contaminants to migrate to the Phase One Property based on the hydraulic and geologic conditions, and the inherent properties of the contaminants of concern.

The contaminants of potential concern were determined based on the professional experience of the QP, common industry standards, literature reviews, and the inherent properties of the contaminant.

This investigation was conducted based on the assumption that all information provided to DS was factual and accurate. DS is not aware of any uncertainty factors which would affect the conclusions of this investigation.

6.4 Phase One Conceptual Site Model

A Phase One Conceptual Site Model is provided in Appendix G.

7.0 Conclusions

DS conducted a Phase One ESA for the property located at 1749, 1755, 1771 and 1773 Jane Street, Toronto, Ontario. The Phase One ESA was completed to satisfy the intent of the requirements,

methodology and practices for a Phase One ESA as described in Ontario Regulation 153/04 (as amended). The objectives of the Phase One ESA was to identify the presence or absence of potentially contaminating activities (PCAs) on the Phase One Property and/or within the Phase One Study Area, and to determine if the PCAs identified within the Phase One Study Area are likely to result in an Area of Potential Environmental Concern (APEC) on the Phase One Property.

Based on the information obtained as part of this investigation, it is concluded that a total of 31 PCAs were identified within the Phase One Study Area, of which 15 PCAs are contributing to 8 APECs on, in or under the Phase One Property. Further investigation in the form of a Phase Two ESA will be required in order to meet the requirements of O.Reg.153/04 (as amended).

7.1 Phase Two Environmental Site Assessment Requirement

Further investigation in the form of a Phase Two ESA will be required in order to meet the requirements of O.Reg.153/04 (as amended).

7.2 RSC Based on Phase One Environmental Site Assessment

Record of Site Condition cannot be filed on the basis of the Phase One ESA due to the identification of Areas of Potential Environmental Concern on the Phase One Property. In addition, a completed Phase One Questionnaire, Chain of Title, and Current and Past Uses table will be required prior to the submission of a RSC.

7.3 Limitations

This report was prepared for the sole use of Medallion Corporation and is intended to provide an assessment of the environmental condition on the property located at 1749, 1755, 1771 and 1773 Jane Street, Toronto, Ontario. The information presented in this report is based on information collected during the completion of the Phase One Environmental Site Assessment by DS Consultants Ltd. The material in this report reflects DS' judgment in light of the information available at the time of report preparation. This report may not be relied upon by any other person or entity without the written authorization of DS Consultants Ltd. The scope of services performed in the execution of this investigation may not be appropriate to satisfy the needs of other users, and any use or reuse of this documents or findings, conclusions and recommendations represented herein, is at the sole risk of said users.

The information and conclusions presented in this report are professional opinions in accordance with generally accepted engineering and scientific practices based on a cursory historical search, visual observations and limited information provided by persons knowledgeable about past and current activities on this site. The work completed as per the scope of work is considered sufficient in detail to form a reasonable basis for the findings presented in this report. As such, DS Consultants Ltd. cannot be held responsible for environmental conditions at the site that were not apparent from the available information.

7.4 Qualifications of the Assessors

Marina Nadj, MES, GIT

Ms. Marina Nadj, MES, is an Assistant Project Manager with DS Consultants Ltd. She obtained a Master of Environmental Science from University of Guelph. Marina holds a Post Graduate Certificate in Environmental Engineering Applications from Conestoga College. She has experience in conducting Phase One and Two Environmental Site Assessments, and in completing soil and groundwater contaminant programs in accordance with Ontario Regulation 153/04 to support the future filing of Record of Site Conditions.

Teresa Weatherhead, LEL, QP_{ESA}

Ms. Teresa Weatherhead is an Environmental Team Lead with DS Consultants Limited who has 19 years of direct experience in the consulting industry. Ms. Weatherhead has an Honours Science Degree from the University of Waterloo and a Post Graduate Diploma in Environmental Engineering Applications from Conestoga College. Ms. Weatherhead is a registered Limited Engineering Licensee (LEL) in the Province of Ontario. Ms. Weatherhead has conducted and supervised numerous Phase One and Phase Two Environmental Site Assessments for a variety of agricultural, residential, industrial, commercial and institutional properties. She also has experience in site remediation, environmental monitoring, submission of Record of Site Conditions and Excess Soil Management. Teresa is considered a Qualified Person to conduct Environmental Site Assessments as defined by Ontario Regulation 153/04 (as amended).

7.5 Signatures

DS Consultants Ltd. conducted this Phase One Environmental Site Assessment and confirms the findings and conclusions contained within this report.

Yours truly,

DS Consultants Ltd.

For
Marina Nadj, MES, GIT
Assistant Project Manager

Teresa Weatherhead, LEL, QP_{ESA}
Environmental Team Lead

RE: CITY DIRECTORY RESEARCH
1771-1775 Jane Street
North York,ON M9N 2S5

Thank you for contacting ERIS regarding our City Directory Search services. Our staff has conducted a reverse listing City Directory search to determine prior occupants of the subject site and adjacent properties. When searching a range of addresses, all civic addresses within that range found in the Directory are included.

Note: Reverse Listing Directories generally are focused on highly developed areas, while newly developed areas may be covered in the more recent years, older directories tend to cover only "central" parts of the city. To complete the search, we have either utilized the Toronto Reference Library, Library & Archives Canada and multiple digitized directories. While these do not claim to be a complete collection of all reverse listing city directories produced, ERIS has made every effort to provide accurate and complete information. ERIS shall not be held liable for missing, incomplete, or inaccurate information. If you believe there are additional addresses or streets that require searching, please contact us.

Search Criteria:

All of Blackstone Street
All of Everglades Drive
All of Hearne Avenue
1670-1855 of Jane Street
230-270 of John Street
1484-1926 of Lawrence Avenue W
80-115 of MacDonald Avenue
All of Marshlynn Avenue
All of Merrill Avenue
25-55 of Patika Avenue
230-265 of Queens Drive
All of Sonnet Court
50-END of Upwood Avenue
All of Vimy Avenue
40-END of Wild Rose Gardens
175-225 of William Street

Search Notes:

1670-1855 Jane Street is also known as 77-END Jane Street (Weston) in North York. 1484-1926 Lawrence Avenue W is also known as 180-END Lawrence Avenue W (Weston) in North York. Queens Drive is also known as Maria in North York. William Street is also known as St Patrick in North York.

Notice: IMPORTANT LIMITATIONS and YOUR LIABILITY

Reliance on information in Report: This report DOES NOT replace a full Phase I Environmental Site Assessment but is solely intended to be used as a database review of environmental records.

License for use of information in Report: No page of this report can be used without this cover page, this notice and the project property identifier. The information in Report(s) may not be modified or re-sold.

Your Liability for misuse: Using this Service and/or its reports in a manner contrary to this Notice or your agreement will be in breach of copyright and contract and ERIS may obtain damages for such mis-use, including damages caused to third parties, and gives ERIS the right to terminate your account, rescind your license to any previous reports and to bar you from future use of the Service.

No warranty of Accuracy or Liability for ERIS: The information contained in this report has been produced by ERIS Information Limited Partnership ("ERIS") using various sources of information, including information provided by Federal and Provincial government departments. The report applies only to the address and up to the date specified on the cover of this report, and any alterations or deviation from this description will require a new report. This report and the data contained herein does not purport to be and does not constitute a guarantee of the accuracy of the information contained herein and does not constitute a legal opinion nor medical advice. Although ERIS has endeavored to present you with information that is accurate, ERIS disclaims, any and all liability for any errors, omissions, or inaccuracies in such information and data, whether attributable to inadvertence, negligence or otherwise, and for any consequences arising therefrom. Liability on the part of ERIS is limited to the monetary value paid for this report.

Trademark and Copyright: You may not use the ERIS trademarks or attribute any work to ERIS other than as outlined above. This Service and Report (s) are protected by copyright owned by ERIS Information Limited Partnership. Copyright in data used in the Service or Report(s) (the "Data") is owned by ERIS or its licensors. The Service, Report(s) and Data may not be copied or reproduced in whole or in any substantial part without prior written consent of ERIS.

Appendix: Database Descriptions

Environmental Risk Information Services (ERIS) can search the following databases. The extent of historical information varies with each database and current information is determined by what is publicly available to ERIS at the time of update. ***Note:*** *Databases denoted with " * " indicates that the database will no longer be updated. See the individual database description for more information.*

Abandoned Aggregate Inventory: Provincial AAGR

The MAAP Program maintains a database of abandoned pits and quarries. Please note that the database is only referenced by lot and concession and city/town location. The database provides information regarding the location, type, size, land use, status and general comments.*

Government Publication Date: Sept 2002*

Aggregate Inventory: Provincial AGR

This database of licensed and permitted pits and quarries is maintained by the Ontario Ministry of Natural Resources and Forestry (MNRF), as regulated under the Aggregate Resources Act, R.S.O. 1990. Aggregate site data has been divided into active and inactive sites. Active sites may be further subdivided into partial surrenders. In partial surrenders, defined areas of a site are inactive while the rest of the site remains active.

Government Publication Date: Up to Nov 2024

Abandoned Mine Information System: Provincial AMIS

The Abandoned Mines Information System contains data on known abandoned and inactive mines located on both Crown and privately held lands. The information was provided by the Ministry of Northern Development and Mines (MNDM), with the following disclaimer: "the database provided has been compiled from various sources, and the Ministry of Northern Development and Mines makes no representation and takes no responsibility that such information is accurate, current or complete". Reported information includes official mine name, status, background information, mine start/end date, primary commodity, mine features, hazards and remediation.

Government Publication Date: 1800-Apr 2024

Anderson's Waste Disposal Sites: Private ANDR

The information provided in this database was collected by examining various historical documents which aimed to characterize the likely position of former waste disposal sites from 1860 to present. The research initiative behind the creation of this database was to identify those sites that are missing from the Ontario MOE Waste Disposal Site Inventory, as well as to provide revisions and corrections to the positions and descriptions of sites currently listed in the MOE inventory. In addition to historic waste disposal facilities, the database also identifies certain auto wreckers and scrap yards that have been extrapolated from documentary sources. Please note that the data is not warranted to be complete, exhaustive or authoritative. The information was collected for research purposes only.

Government Publication Date: 1860s-Present

Aboveground Storage Tanks: Provincial AST

Historical listing of aboveground storage tanks made available by the Department of Natural Resources and Forestry. Includes tanks used to hold water or petroleum. This dataset has been retired as of September 25, 2014 and will no longer be updated.

Government Publication Date: May 31, 2014

Automobile Wrecking & Supplies: Private AUWR

This database provides an inventory of known locations that are involved in the scrap metal, automobile wrecking/recycling, and automobile parts & supplies industry. Information is provided on the company name, location and business type.

Government Publication Date: 1999-Apr 30, 2024

Borehole: Provincial BORE

A borehole is the generalized term for any narrow shaft drilled in the ground, either vertically or horizontally. The information here includes geotechnical investigations or environmental site assessments, mineral exploration, or as a pilot hole for installing piers or underground utilities. Information is from many sources such as the Ministry of Transportation (MTO) boreholes from engineering reports and projects from the 1950 to 1990's in Southern Ontario. Boreholes from the Ontario Geological Survey (OGS) including The Urban Geology Analysis Information System (UGAIS) and the York Peel Durham Toronto (YPDT) database of the Conservation Authority Moraine Coalition. This database will include fields such as location, stratigraphy, depth, elevation, year drilled, etc. For all water well data or oil and gas well data for Ontario please refer to WWIS and OOGW.

Government Publication Date: 1875-Jul 2018

Certificates of Approval: Provincial CA

This database contains the following types of approvals: Air & Noise, Industrial Sewage, Municipal & Private Sewage, Waste Management Systems and Renewable Energy Approvals. The MOE in Ontario states that any facility that releases emissions to the atmosphere, discharges contaminants to ground or surface water, provides potable water supplies, or stores, transports or disposes of waste, must have a Certificate of Approval before it can operate lawfully. Fields include approval number, business name, address, approval date, approval type and status. This database will no longer be updated, as CofA's have been replaced by either Environmental Activity and Sector Registry (EASR) or Environmental Compliance Approval (ECA). Please refer to those individual databases for any information after Oct.31, 2011.

Government Publication Date: 1985-Oct 30, 2011*

Dry Cleaning Facilities: Federal CDRY

List of dry cleaning facilities made available by Environment and Climate Change Canada. Environment and Climate Change Canada's Tetrachloroethylene (Use in Dry Cleaning and Reporting Requirements) Regulations (SOR/2003-79) are intended to reduce releases of tetrachloroethylene to the environment from dry cleaning facilities.

Government Publication Date: Jan 2004-Dec 2022

Commercial Fuel Oil Tanks: Provincial CFOT

Locations of commercial underground fuel oil tanks. This is not a comprehensive or complete inventory of commercial fuel tanks in the province; this listing is a copy of records of registered commercial underground fuel oil tanks obtained under Access to Public Information.
Note that the following types of tanks do not require registration: waste oil tanks in apartments, office buildings, residences, etc.; aboveground gas or diesel tanks. Records are not verified for accuracy or completeness.

Government Publication Date: Oct 2023

Chemical Manufacturers and Distributors: Private CHEM

This database includes information from both a one time study conducted in 1992 and private source and is a listing of facilities that manufacture or distribute chemicals. The production of these chemical substances may involve one or more chemical reactions and/or chemical separation processes (i.e. fractionation, solvent extraction, crystallization, etc.).

Government Publication Date: 1999-Jan 31, 2020

Chemical Register: Private CHM

This database includes a listing of locations of facilities within the Province or Territory that either manufacture and/or distributes chemicals.

Government Publication Date: 1999-Apr 30, 2024

Compressed Natural Gas Stations: Private CNG

Canada has a network of public access compressed natural gas (CNG) refuelling stations. These stations dispense natural gas in compressed form at 3,000 pounds per square inch (psi), the pressure which is allowed within the current Canadian codes and standards. The majority of natural gas refuelling is located at existing retail gasoline that have a separate refuelling island for natural gas. This list of stations is made available by the Canadian Natural Gas Vehicle Alliance.

Government Publication Date: Dec 2012 -Feb 2025

Inventory of Coal Gasification Plants and Coal Tar Sites: Provincial COAL

This inventory includes both the "Inventory of Coal Gasification Plant Waste Sites in Ontario-April 1987" and the Inventory of Industrial Sites Producing or Using Coal Tar and Related Tars in Ontario-November 1988) collected by the MOE. It identifies industrial sites that produced and continue to produce or use coal tar and other related tars. Detailed information is available and includes: facility type, size, land use, information on adjoining properties, soil condition, site operators/occupants, site description, potential environmental impacts and historic maps available. This was a one-time inventory.*

Government Publication Date: Apr 1987 and Nov 1988*

Compliance and Convictions: Provincial CONV

This database summarizes the fines and convictions handed down by the Ontario courts beginning in 1989. Companies and individuals named here have been found guilty of environmental offenses in Ontario courts of law.

Government Publication Date: 1989-Mar 2025

Certificates of Property Use: Provincial CPU

This is a subset taken from Ontario's Environmental Registry (EBR) database. It will include CPU's on the registry such as (EPA s. 168.6) - Certificate of Property Use.

Government Publication Date: 1994 - Feb 28, 2025

Drill Hole Database: Provincial DRL

The Ontario Drill Hole Database (ODHD) is offered by the Province of Ontario's Ministry of Mines. The dataset contains information for over 164,000 percussion, overburden, sonic and diamond-drill holes. The presence of assay results with cutoff values for gold, silver, copper, zinc, lead, nickel and platinum group elements is noted. Drill hole data are compiled from assessment files that have been submitted to the ministry in accordance with the Ontario Mining Act (OMA). Source assessment file numbers are captured for cross reference with the Ontario Assessment File Database (OAFD). Please note that limited data is available for southern Ontario, as it was the last area to be completed. The database was created when surveys submitted to the Ministry were converted in the Assessment File Research Image Database (AFRI) project. However, the degree of accuracy (coordinates) as to the exact location of drill holes is dependent upon the source document submitted. Levels of accuracy used to locate holes are: centering on the mining claim; a sketch of the mining claim; a 1:50,000 map; a detailed company map; or from submitted a "Report of Work".

Government Publication Date: 1886 - Aug 2024

Delisted Fuel Tanks: Provincial DTNK

List of fuel storage tank sites that were once found in - and have since been removed from - the list of fuel storage tanks made available by the regulatory agency under Access to Public Information.

Government Publication Date: Oct 2023

Environmental Activity and Sector Registry: Provincial EASR

On October 31, 2011, a smarter, faster environmental approvals system came into effect in Ontario. The EASR allows businesses to register certain activities with the ministry, rather than apply for an approval. The registry is available for common systems and processes, to which preset rules of operation can be applied. The EASR is currently available for: heating systems, standby power systems and automotive refinishing. Businesses whose activities aren't subject to the EASR may apply for an ECA (Environmental Compliance Approval), Please see our ECA database.

Government Publication Date: Oct 2011-Mar 31, 2025

Environmental Registry: Provincial EBR

The Environmental Registry lists proposals, decisions and exceptions regarding policies, Acts, instruments, or regulations that could significantly affect the environment. Through the Registry, thirteen provincial ministries notify the public of upcoming proposals and invite their comments. For example, if a local business is requesting a permit, license, or certificate of approval to release substances into the air or water; these are notified on the registry. Data includes: Approval for discharge into the natural environment other than water (i.e. Air) - EPA s. 9, Approval for sewage works - OWRA s. 53(1), and EPA s. 27 - Approval for a waste disposal site. For information regarding Permit to Take Water (PTTW), Certificate of Property Use (CPU) and (ORD) Orders please refer to those individual databases.

Government Publication Date: 1994 - Feb 28, 2025

Environmental Compliance Approval: Provincial ECA

On October 31, 2011, a smarter, faster environmental approvals system came into effect in Ontario. In the past, a business had to apply for multiple approvals (known as certificates of approval) for individual processes and pieces of equipment. Today, a business either registers itself, or applies for a single approval, depending on the types of activities it conducts. Businesses whose activities aren't subject to the EASR may apply for an ECA. A single ECA addresses all of a business's emissions, discharges and wastes. Separate approvals for air, noise and waste are no longer required. This database will also include Renewable Energy Approvals. For certificates of approval prior to Nov 1st, 2011, please refer to the CA database. For all Waste Disposal Sites please refer to the WDS database.

Government Publication Date: Oct 2011-Mar 31, 2025

Environmental Effects Monitoring: Federal EEM

The Environmental Effects Monitoring program assesses the effects of effluent from industrial or other sources on fish, fish habitat and human usage of fisheries resources. Since 1992, pulp and paper mills have been required to conduct EEM studies under the Pulp and Paper Effluent Regulations. This database provides information on the mill name, geographical location and sub-lethal toxicity data.

Government Publication Date: 1992-2007*

ERIS Historical Searches: Private EHS

ERIS has compiled a database of all environmental risk reports completed since March 1999. Available fields for this database include: site location, date of report, type of report, and search radius. As per all other databases, the ERIS database can be referenced on both the map and "Statistical Profile" page.

Government Publication Date: 1999-Aug 31, 2024

Environmental Issues Inventory System: Federal EIIS

The Environmental Issues Inventory System was developed through the implementation of the Environmental Issues and Remediation Plan. This plan was established to determine the location and severity of contaminated sites on inhabited First Nation reserves, and where necessary, to remediate those that posed a risk to health and safety; and to prevent future environmental problems. The EIIS provides information on the reserve under investigation, inventory number, name of site, environmental issue, site action (Remediation, Site Assessment), and date investigation completed.

Government Publication Date: 1992-2001*

Emergency Management Historical Event: Provincial EMHE

List of locations of historical occurrences of emergency events, including those assigned to the Ministry of Natural Resources by Order-In-Council (OIC) under the Emergency Management and Civil Protection Act, as well as events where MNR provided requested emergency response assistance. Many of these events will have involved community evacuations, significant structural loss, and/or involvement of MNR emergency response staff. These events fall into one of ten (10) type categories: Dam Failure; Drought / Low Water; Erosion; Flood; Forest Fire; Soil and Bedrock Instability; Petroleum Resource Center Event, EMO Requested Assistance, Continuity of Operations Event, Other Requested Assistance. EMHE record details are reproduced by ERIS under License with the Ontario Ministry of Natural Resources © Queen's Printer for Ontario, 2017.

Government Publication Date: Apr 30, 2022

Environmental Penalty Annual Report: Provincial EPAR

This database contains data from Ontario's annual environmental penalty report published by the Ministry of the Environment, Conservation and Parks (MECP). These reports provide information on environmental penalties for land or water violations issued to companies in one of the nine industrial sectors covered by the Municipal Industrial Strategy for Abatement (MISA) regulations.

Government Publication Date: Jan 1, 2011 - Dec 31, 2024

List of Expired Fuels Safety Facilities: Provincial EXP

List of facilities and tanks for which there was once a fuel registration. This is not a comprehensive or complete inventory of expired tanks/tank facilities in the province; this listing is a copy of previously registered tanks and facilities obtained under Access to Public Information. Includes private fuel outlets, bulk plants, fuel oil tanks, gasoline stations, marinas, propane filling stations, liquid fuel tanks, piping systems, etc; includes tanks which have been removed from the ground.
Notes: registration was not required for private fuel underground/aboveground storage tanks prior to January 1990, nor for furnace oil tanks prior to May 1, 2002; registration is not required for waste oil tanks in apartments, office buildings, residences, etc., or aboveground gas or diesel tanks. Records are not verified for accuracy or completeness.

Government Publication Date: Oct 2023

Federal Convictions: Federal FCON

Environment Canada maintains a database referred to as the "Environmental Registry" that details prosecutions under the Canadian Environmental Protection Act (CEPA) and the Fisheries Act (FA). Information is provided on the company name, location, charge date, offence and penalty.

Government Publication Date: 1988-Jun 2007*

Contaminated Sites on Federal Land: Federal FCS

The Federal Contaminated Sites Inventory includes information on known federal contaminated sites under the custodianship of departments, agencies and consolidated Crown corporations as well as those that are being or have been investigated to determine whether they have contamination arising from past use that could pose a risk to human health or the environment. The inventory also includes non-federal contaminated sites for which the Government of Canada has accepted some or all financial responsibility. It does not include sites where contamination has been caused by, and which are under the control of, enterprise Crown corporations, private individuals, firms or other levels of government. Includes fire training sites and sites at which Per- and Polyfluoroalkyl Substances (PFAS) are a concern.

Government Publication Date: Jun 2000-Jan 2025

Fisheries & Oceans Fuel Tanks: Federal FOFT

Fisheries & Oceans Canada maintains an inventory of aboveground & underground fuel storage tanks located on Fisheries & Oceans property or controlled by DFO. Our inventory provides information on the site name, location, tank owner, tank operator, facility type, storage tank location, tank contents & capacity, and date of tank installation.

Government Publication Date: 1964-Sep 2019

Federal Identification Registry for Storage Tank Systems (FIRSTS): Federal FRST

A list of federally regulated Storage tanks from the Federal Identification Registry for Storage Tank Systems (FIRSTS). FIRSTS is Environment and Climate Change Canada's database of storage tank systems subject to the Storage Tank for Petroleum Products and Allied Petroleum Products Regulations. The main objective of the Regulations is to prevent soil and groundwater contamination from storage tank systems located on federal and aboriginal lands. Storage tank systems that do not have a valid identification number displayed in a readily visible location on or near the storage tank system may be refused product delivery.

Government Publication Date: Oct 31, 2021

Fuel Storage Tank: Provincial FST

List of registered private and retail fuel storage tanks. This is not a comprehensive or complete inventory of private and retail fuel storage tanks in the province; this listing is a copy of registered private and retail fuel storage tanks, obtained under Access to Public Information.
Notes: registration was not required for private fuel underground/aboveground storage tanks prior to January 1990, nor for furnace oil tanks prior to May 1, 2002; registration is not required for waste oil tanks in apartments, office buildings, residences, etc., or aboveground gas or diesel tanks. Records are not verified for accuracy or completeness.

Government Publication Date: Oct 2023

Fuel Storage Tank - Historic: Provincial FSTH

The Fuels Safety Branch of the Ontario Ministry of Consumer and Commercial Relations maintained a database of all registered private fuel storage tanks. Public records of private fuel storage tanks are only available since the registration became effective in September 1989. This information is now collected by the Technical Standards and Safety Authority.

Government Publication Date: Pre-Jan 2010*

Ontario Regulation 347 Waste Generators Summary: Provincial GEN

Regulation 347 of the Ontario EPA defines a waste generation site as any site, equipment and/or operation involved in the production, collection, handling and/or storage of regulated wastes. A generator of regulated waste is required to register the waste generation site and each waste produced, collected, handled, or stored at the site. This database contains the registration number, company name and address of registered generators including the types of hazardous wastes generated. It includes data on waste generating facilities such as: drycleaners, waste treatment and disposal facilities, machine shops, electric power distribution etc. This information is a summary of all years from 1986 including the most currently available data. As of January 1, 2023, businesses and institutions subject to the amended Reg. 347: General – Waste Management are required to report their activities and pay fees through Resource Productivity & Recovery Authority (RPRA) online Hazardous Waste Program Registry (HWPR) rather than the Hazardous Waste Information Network (HWIN) system previously operated by the Ministry of the Environment, Conservation and Parks (MECP). Some records may contain, within the company name, the phrase "See & Use..." followed by a series of letters and numbers. This occurs when one company is amalgamated with or taken over by another registered company. The number listed as "See & Use", refers to the new ownership and the other identification number refers to the original ownership. This phrase serves as a link between the 2 companies until operations have been fully transferred.

Government Publication Date: 1986-Jun 30, 2024

Greenhouse Gas Emissions from Large Facilities: Federal GHG

List of greenhouse gas emissions from large facilities made available by Environment Canada. Greenhouse gas emissions in kilotonnes of carbon dioxide equivalents (kt CO2 eq).

Government Publication Date: 2013-Apr 2024

TSSA Historic Incidents: Provincial HINC

List of historic incidences of spills and leaks of diesel, fuel oil, gasoline, natural gas, propane, and hydrogen recorded by the TSSA in their previous incident tracking system. The TSSA's Fuels Safety Program administers the Technical Standards & Safety Act 2000, providing fuel-related safety services associated with the safe transportation, storage, handling and use of fuels such as gasoline, diesel, propane, natural gas and hydrogen. Under this Act, the TSSA regulates fuel suppliers, storage facilities, transport trucks, pipelines, contractors and equipment or appliances that use fuels. Records are not verified for accuracy or completeness. This is not a comprehensive or complete inventory of historical fuel spills and leaks in the province. This listing is a copy of the data captured at one moment in time and is hence limited by the record date provided here.

Government Publication Date: 2006-June 2009*

Indian & Northern Affairs Fuel Tanks: Federal IAFT

The Department of Indian & Northern Affairs Canada (INAC) maintains an inventory of aboveground & underground fuel storage tanks located on both federal and crown land. Our inventory provides information on the reserve name, location, facility type, site/facility name, tank type, material & ID number, tank contents & capacity, and date of tank installation.

Government Publication Date: 1950-Aug 2003*

Fuel Oil Spills and Leaks: Provincial INC

Listing of spills and leaks of diesel, fuel oil, gasoline, natural gas, propane, and hydrogen reported to the Spills Action Centre (SAC). This is not a comprehensive or complete inventory of fuel-related leaks, spills, and incidents in the province; this listing in a copy of incidents reported to the SAC, obtained under Access to Public Information. Includes incidents from fuel-related hazards such as spills, fires, and explosions. Records are not verified for accuracy or completeness.

Government Publication Date: 31 Oct, 2023

Landfill Inventory Management Ontario: Provincial LIMO

The Landfill Inventory Management Ontario (LIMO) database is updated every year, as the Ministry of the Environment, Conservation and Parks compiles new and updated information. Includes small and large landfills currently operating as well as those which are closed and historic. Operators of larger landfills provide landfill information for the previous operating year to the ministry for LIMO including: estimated amount of total waste received, landfill capacity, estimated total remaining landfill capacity, fill rates, engineering designs, reporting and monitoring details, size of location, service area, approved waste types, leachate of site treatment, contaminant attenuation zone and more. The small landfills include information such as site owner, site location and certificate of approval # and status.

Government Publication Date: Mar 31, 2022

Canadian Mine Locations: Private MINE

This information is collected from the Canadian & American Mines Handbook. The Mines database is a national database that provides over 290 listings on mines (listed as public companies) dealing primarily with precious metals and hard rocks. Listed are mines that are currently in operation, closed, suspended, or are still being developed (advanced projects). Their locations are provided as geographic coordinates (x, y and/or longitude, latitude). As of 2002, data pertaining to Canadian smelters and refineries has been appended to this database.

Government Publication Date: 1998-2009*

Mineral Occurrences: Provincial MNR

In the early 70's, the Ministry of Northern Development and Mines created an inventory of approximately 19,000 mineral occurrences in Ontario, in regard to metallic and industrial minerals, as well as some information on building stones and aggregate deposits. Please note that the "Horizontal Positional Accuracy" is approximately +/- 200 m. Many reference elements for each record were derived from field sketches using pace or chain/tape measurements against claim posts or topographic features in the area. The primary limiting factor for the level of positional accuracy is the scale of the source material. The testing of horizontal accuracy of the source materials was accomplished by comparing the plan metric (X and Y) coordinates of that point with the coordinates of the same point as defined from a source of higher accuracy.

Government Publication Date: 1846-Feb 2025

National Analysis of Trends in Emergencies System (NATES): Federal NATE

In 1974 Environment Canada established the National Analysis of Trends in Emergencies System (NATES) database, for the voluntary reporting of significant spill incidents. The data was to be used to assist in directing the work of the emergencies program. NATES ran from 1974 to 1994. Extensive information is available within this database including company names, place where the spill occurred, date of spill, cause, reason and source of spill, damage incurred, and amount, concentration, and volume of materials released.

Government Publication Date: 1974-1994*

Non-Compliance Reports: Provincial NCPL

The Ministry of the Environment Conservation and Parks (MECP) provides information about non-compliant discharges of contaminants to air and water that exceed legal allowable limits, from regulated industrial and municipal facilities. A reported non-compliance failure may be in regard to a Control Order, Certificate of Approval, Sectoral Regulation or specific regulation/act. MECP publicly releases the Environmental Compliance Report (ECR) on the Ontario Data Catalogue. In Ontario, all facilities with regulated wastewater discharges or air emissions under the Ontario Water Resources Act and the Environmental Protection Act must monitor and report any cases where approved operating limits have been exceeded.

Government Publication Date: Dec 31, 2023

National Defense & Canadian Forces Fuel Tanks: Federal NDFT

The Department of National Defense and the Canadian Forces maintains an inventory of all aboveground & underground fuel storage tanks located on DND lands. Our inventory provides information on the base name, location, tank type & capacity, tank contents, tank class, date of tank installation, date tank last used, and status of tank as of May 2001. This database will no longer be updated due to the new National Security protocols which have prohibited any release of this database.

Government Publication Date: Up to May 2001*

National Defense & Canadian Forces Spills: Federal NDSP

The Department of National Defense and the Canadian Forces maintains an inventory of spills to land and water. All spill sites have been classified under the "Transportation of Dangerous Goods Act - 1992". Our inventory provides information on the facility name, location, spill ID #, spill date, type of spill, as well as the quantity of substance spilled & recovered.

Government Publication Date: Mar 1999-Nov 2023

National Defence & Canadian Forces Waste Disposal Sites: Federal NDWD

The Department of National Defence and the Canadian Forces maintains an inventory of waste disposal sites located on DND lands. Where available, our inventory provides information on the base name, location, type of waste received, area of site, depth of site, year site opened/closed and status.

Government Publication Date: 2001-Apr 2007*

National Energy Board Pipeline Incidents: Federal NEBI

Locations of pipeline incidents from 2008 to present, made available by the Canada Energy Regulator (CER) - previously the National Energy Board (NEB). Includes incidents reported under the Onshore Pipeline Regulations and the Processing Plant Regulations related to pipelines under federal jurisdiction, does not include incident data related to pipelines under provincial or territorial jurisdiction.

Government Publication Date: 2008-Dec 31, 2024

National Energy Board Wells: Federal NEBP

The NEBW database contains information on onshore & offshore oil and gas wells that are outside provincial jurisdiction(s) and are thereby regulated by the National Energy Board. Data is provided regarding the operator, well name, well ID No./UWI, status, classification, well depth, spud and release date.

Government Publication Date: 1920-Feb 2003*

National Environmental Emergencies System (NEES): Federal NEES

In 2000, the Emergencies program implemented NEES, a reporting system for spills of hazardous substances. For the most part, this system only captured data from the Atlantic Provinces, some from Quebec and Ontario and a portion from British Columbia. Data for Alberta, Saskatchewan, Manitoba and the Territories was not captured. However, NEES is also a repository for previous Environment Canada spill datasets. NEES is composed of the historic datasets ' or Trends ' which dates from approximately 1974 to present. NEES Trends is a compilation of historic databases, which were merged and includes data from NATES (National Analysis of Trends in Emergencies System), ARTS (Atlantic Regional Trends System), and NEES. In 2001, the Emergencies Program determined that variations in reporting regimes and requirements between federal and provincial agencies made national spill reporting and trend analysis difficult to achieve. As a consequence, the department has focused efforts on capturing data on spills of substances which fall under its legislative authority only (CEPA and FA). As such, the NEES database will be decommissioned in December 2004.

Government Publication Date: 1974-2003*

National PCB Inventory: Federal NPCB

Environment Canada's National PCB inventory includes information on in-use PCB containing equipment in Canada including federal, provincial and private facilities. Federal out-of-service PCB containing equipment and PCB waste owned by the federal government or by federally regulated industries such as airlines, railway companies, broadcasting companies, telephone and telecommunications companies, pipeline companies, etc. are also listed. Although it is not Environment Canada's mandate to collect data on non-federal PCB waste, the National PCB inventory includes some information on provincial and private PCB waste and storage sites. Some addresses provided may be Head Office addresses and are not necessarily the location of where the waste is being used or stored.

Government Publication Date: 1988-2008*

National Pollutant Release Inventory: Federal NPR2

The National Pollutant Release Inventory (NPRI) is Canada's public inventory of pollutant releases (to air, water and land), disposals, and transfers for recycling. The inventory, managed by Environment and Climate Change Canada, tracks over 300 substances. Under the authority of the Canadian Environmental Protection Act (CEPA), owners or operators of facilities that meet published reporting requirements are required to report to the NPRI.

Government Publication Date: Feb 2024

National Pollutant Release Inventory - Historic: Federal NPRI

Environment Canada has defined the National Pollutant Release Inventory ("NPRI") as a federal government initiative designed to collect comprehensive national data regarding releases to air, water, or land, and waste transfers for recycling for more than 300 listed substances. This data holds historic records; current records are found in NPR2.

Government Publication Date: 1993-May 2017

Oil and Gas Wells: Private OGWE

The Nickle's Energy Group (publisher of the Daily Oil Bulletin) collects information on drilling activity including operator and well statistics. The well information database includes name, location, class, status and depth. The main Nickle's database is updated on a daily basis, however, this database is updated on a monthly basis. More information is available at www.nickles.com.

Government Publication Date: 1988-May 31, 2024

Ontario Oil and Gas Wells: Provincial OOGW

In 1998, the Ministry of Natural Resources (MNR) handed over to the Ontario Oil, Gas and Salt Resources (OGSR) Corporation, the responsibility of maintaining a database of oil and gas wells drilled in Ontario. The OGSR Library has over 20,000+ wells in their database. Information available for all wells in the ERIS database includes well owner/operator, location, permit issue date, and well cap date, license number, status, depth and the primary target (rock unit) of the well being drilled. All geology/stratigraphy table information, plus all water table information is also provided for each well record.

Government Publication Date: 1800-Aug 2024

Inventory of PCB Storage Sites: Provincial OPCB

The Ontario Ministry of Environment, Waste Management Branch, maintains an inventory of PCB storage sites within the province. Ontario Regulation 11/82 (Waste Management - PCB) and Regulation 347 (Generator Waste Management) under the Ontario EPA requires the registration of inactive PCB storage equipment and/or disposal sites of PCB waste with the Ontario Ministry of Environment. This database contains information on: 1) waste quantities; 2) major and minor sites storing liquid or solid waste; and 3) a waste storage inventory.

Government Publication Date: 1987-Oct 2004; 2012-Dec 2013

Orders: Provincial ORD

This is a subset taken from Ontario's Environmental Registry (EBR) database. It will include Orders on the registry such as (EPA s. 17) - Order for remedial work, (EPA s. 18) - Order for preventative measures, (EPA s. 43) - Order for removal of waste and restoration of site, (EPA s. 44) - Order for conformity with Act for waste disposal sites, (EPA s. 136) - Order for performance of environmental measures.

Government Publication Date: 1994 - Feb 28, 2025

Canadian Pulp and Paper: Private PAP

This information is part of the Pulp and Paper Canada Directory. The Directory provides a comprehensive listing of the locations of pulp and paper mills and the products that they produce.

Government Publication Date: 1999, 2002, 2004, 2005, 2009-2014

Parks Canada Fuel Storage Tanks: Federal PCFT

Canadian Heritage maintains an inventory of known fuel storage tanks operated by Parks Canada, in both National Parks and at National Historic Sites. The database details information on site name, location, tank install/removal date, capacity, fuel type, facility type, tank design and owner/operator.

Government Publication Date: 1920-Jan 2005*

Pesticide Register: Provincial PES

The Ontario Ministry of the Environment and Climate Change maintains a database of licensed operators and vendors of registered pesticides.

Government Publication Date: Oct 2011-Mar 31, 2025

Ontario PFAS Spills: Provincial PFAS

This specific list of spills includes those incidents where one or more of the listed contaminants are identified in the PFAS Structure List and/or PFAS Chemicals Without Explicit Structure List made available by the United States Environmental Protection Agency (US EPA), is originally sourced from the Ministry of the Environment, Conservation and Parks spills related data. Information from 1988-2002 was part of the ORIS (Occurrence Reporting Information System). The SAC (Spills Action Centre) handles all spills reported in Ontario. Regulations for spills in Ontario are part of the MOE's Environmental Protection Act, Part X.

Government Publication Date: 1988-Jun 2024; Aug 2024; Oct-Nov 2024

NPRI Reporters - PFAS Substances: Federal PFCH

The National Pollutant Release Inventory (NPRI) is Canada's public inventory of releases, disposals, and transfers, tracking over 320 pollutants. Per - and polyfluoroalkyl substances (PFAS) are a group of over 4,700 human-made substances for which adverse environmental and health effects have been observed. This listing of PFAS substance reporters includes those NPRI facilities that reported substances that are found in either: a) the Comprehensive Global Database of PFASs compiled by the Organisation for Economic Co-operation and Development (OECD), b) the US Environmental Protection Agency (US EPA) Master List of PFAS Substances, c) the US EPA list of PFAS chemicals without explicit structures, or d) the US EPA list of PFAS structures (encompassing the largest set of structures having sufficient levels of fluorination to potentially impart PFAS-type properties).

Government Publication Date: Feb 2024

Potential PFAS Handlers from NPRI: Federal PFHA

The National Pollutant Release Inventory (NPRI) is Canada's public inventory of releases, disposals, and transfers, tracking over 320 pollutants. Per - and polyfluoroalkyl substances (PFAS) are a group of over 4,700 human-made substances for which adverse environmental and health effects have been observed. This list of potential PFAS handlers includes those NPRI facilities that reported business activity (NAICS code) included in the US Environmental Protection Agency (US EPA) list of Potential PFAS-Handling Industry Sectors, further described as operating in industry sectors where literature reviews indicate that PFAS may be handled and/or released. Inclusion of a facility in this listing does not indicate that PFAS are being manufactured, processed, used, or released by the facility - these are facilities that potentially handle PFAS based on their industrial profile.

Government Publication Date: Feb 2024

Pipeline Incidents: Provincial PINC

List of pipeline incidents (strikes, leaks, spills). This is not a comprehensive or complete inventory of pipeline incidents in the province; this listing in an historical copy of records previously obtained under Access to Public Information. Records are not verified for accuracy or completeness.

Government Publication Date: Feb 28, 2021

Potential PFAS Handlers from EASR: Provincial PPHA

The Ontario Environmental Activity and Sector Registry (EASR), described in Ontario Regulation 245/11, allows businesses with less complex operations - and hence not requiring an Environmental Compliance Approval - to register their activities with the Ontario Ministry of the Environment, Conservation and Parks (MECP). This list of potential PFAS handlers includes those EASR facilities that reported business activity (NAICS code) included in the US Environmental Protection Agency (US EPA) list of Potential PFAS-Handling Industry Sectors, further described as operating in industry sectors where literature reviews indicate that PFAS may be handled and/or released. Inclusion of a facility in this listing does not indicate that PFAS are being manufactured, processed, used.

Government Publication Date: Jun 30, 2024

Private and Retail Fuel Storage Tanks: Provincial PRT

The Fuels Safety Branch of the Ontario Ministry of Consumer and Commercial Relations maintained a database of all registered private fuel storage tanks and licensed retail fuel outlets. This database includes an inventory of locations that have gasoline, oil, waste oil, natural gas and/or propane storage tanks on their property. The MCCR no longer collects this information. This information is now collected by the Technical Standards and Safety Authority (TSSA).

Government Publication Date: 1989-1996*

Permit to Take Water: Provincial PTTW

This is a subset taken from Ontario's Environmental Registry (EBR) database. It will include PTTW's on the registry such as OWRA s. 34 - Permit to take water.

Government Publication Date: 1994 - Feb 28, 2025

Ontario Regulation 347 Waste Receivers Summary: Provincial REC

Part V of the Ontario Environmental Protection Act ("EPA") regulates the disposal of regulated waste through an operating waste management system or a waste disposal site operated or used pursuant to the terms and conditions of a Certificate of Approval or a Provisional Certificate of Approval. Regulation 347 of the Ontario EPA defines a waste receiving site as any site or facility to which waste is transferred by a waste carrier. A receiver of regulated waste is required to register the waste receiving facility. This database represents registered receivers of regulated wastes, identified by registration number, company name and address, and includes receivers of waste such as: landfills, incinerators, transfer stations, PCB storage sites, sludge farms and water pollution control plants. This information is a summary of all years from 1986 including the most currently available data.

Government Publication Date: 1986-1990, 1992-2021

Record of Site Condition: Provincial RSC

The Record of Site Condition (RSC) is part of the Ministry of the Environment's Brownfields Environmental Site Registry. Protection from environmental cleanup orders for property owners is contingent upon documentation known as a record of site condition (RSC) being filed in the Environmental Site Registry. In order to file an RSC, the property must have been properly assessed and shown to meet the soil, sediment and groundwater standards appropriate for the use (such as residential) proposed to take place on the property. The Record of Site Condition Regulation (O. Reg. 153/04) details requirements related to site assessment and clean up. RSCs filed after July 1, 2011 will also be included as part of the new (O.Reg. 511/09). The Government of Ontario states that it is not responsible for the accuracy of the information in this Registry.

Government Publication Date: 1997-Sept 2001, Oct 2004-Mar 2025

Retail Fuel Storage Tanks: Private RST

This database includes an inventory of retail fuel outlet locations (including marinas) that have on their property gasoline, oil, waste oil, natural gas and / or propane storage tanks.

Government Publication Date: 1999-Apr 30, 2024

Scott's Manufacturing Directory: Private SCT

Scott's Directories is a data bank containing information on over 200,000 manufacturers across Canada. Even though Scott's listings are voluntary, it is the most comprehensive database of Canadian manufacturers available. Information concerning a company's address, plant size, and main products are included in this database.

Government Publication Date: 1992-Mar 2011*

Ontario Spills: Provincial SPL

List of spills and incidents made available by the Ministry of the Environment, Conservation and Parks. This database identifies information such as location (approximate), type and quantity of contaminant, date of spill, environmental impact, cause, nature of impact, etc. Information from 1988-2002 was part of the ORIS (Occurrence Reporting Information System). The SAC (Spills Action Centre) handles all spills reported in Ontario. Regulations for spills in Ontario are part of the MOE's Environmental Protection Act, Part X.

Government Publication Date: 1988-Jun 2024; Aug-Jan 2025

Wastewater Discharger Registration Database: Provincial SRDS

Facilities that report either municipal treated wastewater effluent or industrial wastewater discharges under the Effluent Monitoring and Effluent Limits (EMEL) and Municipal/Industrial Strategy for Abatement Regulations. The Municipal/Industrial Strategy for Abatement (MISA) division of the Ontario Ministry of Environment keeps record of direct dischargers of toxic pollutants within nine sectors including: Electric Power Generation, Mining, Petroleum Refining, Organic Chemicals, Inorganic Chemicals, Pulp & Paper, Metal Casting, Iron & Steel, and Quarries.

Government Publication Date: 1990-Dec 31, 2021

Anderson's Storage Tanks: Private TANK

The information provided in this database was collected by examining various historical documents, which identified the location of former storage tanks, containing substances such as fuel, water, gas, oil, and other various types of miscellaneous products. Information is available in regard to business operating at tank site, tank location, permit year, permit & installation type, no. of tanks installed & configuration and tank capacity. Data contained within this database pertains only to the city of Toronto and is not warranted to be complete, exhaustive or authoritative. The information was collected for research purposes only.

Government Publication Date: 1915-1953*

Transport Canada Fuel Storage Tanks: Federal TCFT

List of fuel storage tanks currently or previously owned or operated by Transport Canada. This inventory also includes tanks on The Pickering Lands, which refers to 7,530 hectares (18,600 acres) of land in Pickering, Markham, and Uxbridge owned by the Government of Canada since 1972; properties on this land has been leased by the government since 1975, and falls under the Site Management Policy of Transport Canada, but is administered by Public Works and Government Services Canada. This inventory provides information on the site name, location, tank age, capacity and fuel type.

Government Publication Date: 1970 - Apr 2024

Variances for Abandonment of Underground Storage Tanks: Provincial VAR

Listing of variances granted for storage tank abandonment. This is not a comprehensive or complete inventory of tank abandonment variances in the province; this listing is a copy of tank abandonment variance records previously obtained under Access to Public Information. In Ontario, registered underground storage tanks must be removed within two years of disuse; if removal of a tank is not feasible, an application may be sought for a variance from this code requirement.
Records are not verified for accuracy or completeness.

Government Publication Date: Feb 28, 2022

Waste Disposal Sites - MOE CA Inventory: Provincial WDS

The Ontario Ministry of Environment, Waste Management Branch, maintains an inventory of known open (active or inactive) and closed disposal sites in the Province of Ontario. Active sites maintain a Certificate of Approval, are approved to receive and are receiving waste. Inactive sites maintain Certificate(s) of Approval but are not receiving waste. Closed sites are not receiving waste. The data contained within this database was compiled from the MOE's Certificate of Approval database. Locations of these sites may be cross-referenced to the Anderson database described under ERIS's Private Source Database section, by the CA number. All new Environmental Compliance Approvals handed out after Oct 31, 2011 for Waste Disposal Sites will still be found in this database.

Government Publication Date: Oct 2011 - Mar 31, 2025

Waste Disposal Sites - MOE 1991 Historical Approval Inventory: Provincial WDSH

In June 1991, the Ontario Ministry of Environment, Waste Management Branch, published the "June 1991 Waste Disposal Site Inventory", of all known active and closed waste disposal sites as of October 30st, 1990. For each "active" site as of October 31st 1990, information is provided on site location, site/CA number, waste type, site status and site classification. For each "closed" site as of October 31st 1990, information is provided on site location, site/CA number, closure date and site classification. Locations of these sites may be cross-referenced to the Anderson database described under ERIS's Private Source Database section, by the CA number.

Government Publication Date: Up to Oct 1990*

Water Well Information System: Provincial WWIS

This database describes locations and characteristics of water wells found within Ontario in accordance with Regulation 903. It includes such information as coordinates, construction date, well depth, primary and secondary use, pump rate, static water level, well status, etc. Also included are detailed stratigraphy information, approximate depth to bedrock and the approximate depth to the water table.

Government Publication Date: Dec 31 2023

Definitions

Database Descriptions: This section provides a detailed explanation for each database including: source, information available, time coverage, and acronyms used. They are listed in alphabetic order.

Detail Report: This is the section of the report which provides the most detail for each individual record. Records are summarized by location, starting with the project property followed by records in closest proximity.

Distance: The distance value is the distance between plotted points, not necessarily the distance between the sites' boundaries. All values are an approximation.

Direction: The direction value is the compass direction of the site in respect to the project property and/or center point of the report.

Elevation: The elevation value is taken from the location at which the records for the site address have been plotted. All values are an approximation. Source: Google Elevation API.

Executive Summary: This portion of the report is divided into 3 sections:

'Report Summary'- Displays a chart indicating how many records fall on the project property and, within the report search radii.

'Site Report Summary'-Project Property'- This section lists all the records which fall on the project property. For more details, see the 'Detail Report' section.

'Site Report Summary-Surrounding Properties'- This section summarizes all records on adjacent properties, listing them in order of proximity from the project property. For more details, see the 'Detail Report' section.

Map Key: The map key number is assigned according to closest proximity from the project property. Map Key numbers always start at #1. The project property will always have a map key of '1' if records are available. If there is a number in brackets beside the main number, this will indicate the number of records on that specific property. If there is no number in brackets, there is only one record for that property.

The symbol and colour used indicates 'elevation': the red inverted triangle will dictate 'ERIS Sites with Lower Elevation', the yellow triangle will dictate 'ERIS Sites with Higher Elevation' and the orange square will dictate 'ERIS Sites with Same Elevation.'

Unplottables: These are records that could not be mapped due to various reasons, including limited geographic information. These records may or may not be in your study area, and are included as reference.

Terms and Conditions

Report

The documents (hereinafter referred to as the "Documents") to be released as part of the report (hereinafter referred to as the "Report") to be delivered to the purchaser as set out above are documents in Verisk's records relating to the described property (hereinafter referred to as the "Property"). Verisk makes no representations or warranties respecting the Documents whatsoever, including, without limitation, with respect to the completeness, accuracy or usefulness of the Documents, and does not represent or warrant that these are the only plans and reports prepared in association with the Property or in Verisk's possession at the time of Report delivery to the purchaser. The Documents are current as of the date(s) indicated on them. Interpretation of the Documents, if any, is by inference based upon the information which is apparent and obvious on the face of the Documents only. Verisk does not represent, warrant or guarantee that interpretations other than those referred to do not exist from other sources. The Report will be prepared for use by the purchaser of the services as shown above hereof only.

Disclaimer

Verisk disclaims responsibility for any losses or damages of any kind whatsoever, whether consequential or other, however caused, incurred or suffered, arising directly or indirectly as a result of the services (which services include, but are not limited to, the preparation of the Report provided hereunder), including but not limited to, any losses or damages arising directly or indirectly from any breach of contract, fundamental or otherwise, from reliance on Verisk Reports or from any tortious acts or omissions of Verisk's agents, employees or representatives.

Entire Agreement

The parties hereto acknowledge and agree to be bound by the terms and conditions hereof. The request form constitutes the entire agreement between the parties pertaining to the subject matter hereof and supersedes all prior and contemporaneous agreements, negotiations and discussions, whether oral or written, and there are no representations or warranties, or other agreements between the parties in connection with the subject matter hereof except as specifically set forth herein. No supplement, modification, waiver, or termination of the request shall be binding, unless confirmed in writing by the parties hereto.

Governing Document

In the event of any conflicts or inconsistencies between the provisions hereof and the Reports, the rights and obligations of the parties shall be deemed to be governed by the request form, which shall be the paramount document.

Law

This agreement shall be governed by and construed in accordance with the laws of the Province of Ontario and the laws of Canada applicable therein.

CONSTRUCTION OF BUILDING

1. **TYPE OF CONSTRUCTION – Floors & Roof Carried on:**

(a) Skeleton Steel Framework	☐	(d) Bearing Walls & Steel Columns	☐
(b) Reinforced Concrete Framework	☒	(e) Steel on Steel Walls & Roof	☐
(c) Bearing Walls & Partitions	☐	(f) Other Construction	☐

(Describe fully)

2. **WALLS** – State construction of external walls. BRICK / HCB

If bearing walls give thickness of walls in inches at each floor

3. **ROOF AND FLOOR** – Materials

Roof ☐	Floors ☐	(a) Concrete, reinforced – Poured in place (inches thick
Roof ☒	Floors ☒	(b) Concrete, on metal pan – Poured in place 2-3 (7.6-7.6 cm) inches thick
Roof ☐	Floors ☐	(c) Concrete, Precast Units inches thick (Name of Manufacturer)
Roof ☐	Floors ☐	(d) Steel Deck, Construction #1 ☐ Otherwise ☐

*If Construction #1 State method of attaching insulation to steel deck and type of insulation

Mechanical Fasteners ☐ * Adhesive ☐ Otherwise ☐

*If adhesive state trade name

Type of insulation on steel deck

Roof ☐	Floors ☐	(e) Other Materials – Describe and Show Thickness

2062/8-75

(over)

ROOF AND FLOOR — Method of support

Roof	Floors	
Roof ☐	Floors ☐	(a) Unprotected Steel Beams.
Roof ☐	Floors ☐	(b) Steel Beams Protected by ..... inches of .....
Roof ☒	Floors ☒	(c) Reinforced Conc. Beams – Poured in place.
Roof ☐	Floors ☐	(d) Precast Concrete Structural Units ..... inches thick ..... (Name of Manufacturer)
Roof ☐	Floors ☐	(e) Bearing Walls Only. No Supporting Steel.

If building is composed of more than one type of construction, identify sections of floor involving each type and indicate on plan.

(a) Is there any roof space exceeding 3 feet in height? ..... If so, for what purpose is it used? .....

How is access obtained thereto? ..... If by trap or door, describe type .....

(b) Are all skylights of wired glass in metal frames? .....

(c) Is there any wood in roof, louvres, ventilators or skylights; if so give details .....

(d) Is there a wood roof laid over an incombustible one? ..... If so, how is it supported? .....

(e) If so, what is the maximum and minimum height of this above the incombustible roof? .....

(f) Is the incombustible roof broken by texas, louvres, ventilator, trapdoor, skylight, stair, elevator, other shafts? .....

Is so, what is the construction of the sides through roof space? .....

Is there any access or opening from these shafts to the roof space? Describe each separately .....

(g) Is there a superstructure, water cooling tower, or Penthouse of any kind on the roof? YES If so, given dimensions, construction and occupancy 20'X30'

STAIRS ACCROSS ROOF How is access obtained? PRE CAST CONCRETE.

(h) Is there a wood wearing floor? PARTIAL If so, on which storeys? 1 - 14th IN APARTMENTS ONLY

(i) Is it laid directly on incombustible floor or with an airspace? Describe .....

4. **STEEL COLUMNS AND BEAMS** – Are they fireproofed? YES If "Yes" state nature and thickness of such protection.

(a) Columns .....

(a) Beams .....

FLOOR OPENINGS

5. **STAIRWAYS** – How many, and state from which floor to which? 2 - 1 - 1ST - Roof 1 - 1st - 14th

Is there an enclosure around them? YES If so, describe construction of enclosure, and the doors, and whether doors are self-closing .....

MASONARY WITH S/C H/C DOORS

6. **ELEVATORS** – How many, and state from which floor to which? 2 COMMON SHAFT CUT - 14th

Is there an enclosure around them? YES If so, describe construction of of enclosure, and the doors, and whether doors are self-closing .....

MASONARY ENCLOSURE M/C S/C (AUTOMATIC) DOORS

7. **CHUTES, VENTS, DUMB WAITERS & BELT HOLES & OTHER FLOOR OPENINGS** – Give size, construction of enclosure (if any), type of door (if any), and whether self-closing, stating which floors are cut by each 1ST-14th GARBAGE CHUTE APPROX 12'X18'

WITH S/C H/C DOOR

8. **HEATING AND VENTILATING DUCTS** – Are there any? NO (a) Are ducts, which cut through floor, in masonry shafts .....

(b) Give construction of shaft ..... (c) State whether separate duct to each floor without communication to other floors .....

(d) Do ducts open into roof space? .....

9. **HEIGHT** – State number of floors and whether there is a basement 14 FLRS & BMT.

10. **AREA** – Give ground floor dimensions 27,350 SQ. FT. M.2

2543.55

11 **INTERIOR FINISH** –

State separately for each floor, finish and method of attachment to walls and ceiling (If more than one type of finish is present on any one floor, state percentage of each type)

	Bast	1st	2nd	3rd	4th	5th	6th	14th
(a) Walls	CONC/N.	MLP						
(b) Ceilings	CONC/N.	MLP						
(c) Partitions								

State extent of any wood partitions, or partitions having wood supports in square feet separately for each floor:–

(d) Is there any other inside or outside combustible finish or trim other than above? Describe fully

12. **HEATING** – What is the system of heating the building? HOT WATER FURNACES. Where is heating plant located? PENTHOUSE

Is it in fire-resistive room with standard fire door? NO Are there any stoves; if so, how many and where located

Do any heating devices vent otherwise than to brick or concrete chimney; if so, give details

What fuel is used? GAS

13. **ELECTRIC WIRING** – All wiring is in Rigid Conduit ☒ & Otherwise ☒ BX.

Are all circuits protected by type "S" tamper resisting fuses or non-interchangeable circuit breakers?

14. **POWER** – Is any used? YES If so, what kind? ELECTRIC Total Horse Power? + 1 HP

What used for? BUILDING SERVICES

If gasoline engine, state method of ignition, location and capacity of supply, tank, whether feed is pressure or gravity, quantity of gasoline in engine

15. **GASOLINE OR BENZINE, OR OTHER OILS** – Are any kept? NO If so, what quanity of each?

What used for?

16. **COMMUNICATIONS** – Does the building communicate with any other building NO (a) If so, give dimensions, height, construction and occupancy and indicate clearly on diagram

(b) If so, are buildings separated by solid wall? (c) If so, are all openings in this wall protected by self-closing U.L. labelled Class A fire doors?

(d) If not, describe type of doors on each opening

PUBLIC PROTECTION

17. **FIRE DEPARTMENT** – State distance to the nearest fire station 1 MILE = 1.61 Km

18. **HYDRANTS** – What is the distance to the nearest two hydrants? 250' & 300' Give size of main 6" & 12"
76.25 91.5 m 150 & 300 mm

INTERNAL PROTECTION

19. Show number units for each floor:

	Basement	1st	2nd	3rd	4th	5th	6th	7th	8th	14
Extgrs. 2½ Gal. Class A	6 - 2A	2 - 2A								
Extgrs Class B & C										
Stand Pipe & Hose	6	2 SPH								

20 **WATCHMAN** – Is there a Watchman making rounds of the whole premises, nights, Sundays, holidays, and at all times when plant is not in operation, rounds being made not less than once an hour during the night, i.e. from 6 p.m. to 6 a.m., and every two hours during the day?

(a) Does he use a portable clock, electric detector, or report to central station?

(b) Give name of manufacturer of clock (c) Does it bear approval label of Underwriters' Laboratories

(d) Are the stations sufficient and so located that the Watchman must traverse each flat and every portion be visible to him?

21 **AUTOMATIC FIRE DETECTION SYSTEM** – If such system is present provide details on questionnaire obtainable from IAO LOCAL ONLY.

(over)

Appendix G

1.0 Phase One Conceptual Site Model

A Conceptual Site Model was developed for the Phase One Property, located at 1749, 1755, 1771 and 1773 Jane Street, Toronto, herein referred to as the "Phase One Property" or the "Site". The Phase One Conceptual Site Model is presented in Figures 1 through 5 and visually depict the following:

- Any existing buildings and structures
- Water bodies located in whole, or in part, on the Phase One Study Area
- Areas of natural significance located in whole, or in part, on the Phase One Study Area
- Water wells at the Phase One Property or within the Phase One Study Area
- Roads, including names, within the Phase One Study Area
- Uses of properties adjacent to the Phase One Property
- Areas where any PCAs have occurred, including location of any tanks
- Areas of Potential Environmental Concern

The Phase One Property is a 0.81 hectare (2.0 acres) parcel of land situated within a mixed residential and commercial neighbourhood in the City of Toronto, Ontario. The Phase One Property is located at the northeast corner of the intersection of Jane Street and Marshlynn Avenue. The Phase One Property is shown on Figure 1.

Historically, the Phase One Property was developed with nine (9) historical house structures and six (6) detached auto storage garages. The residential houses were historically located at 1739, 1745, 1747, 1753, 1757, 1761,1763, 1771 and 1773 Jane Street. The houses were located on the western portion of the Site, fronting Jane Street, and the garages are located on the eastern portion of the Site. The historical house structures were constructed between early to mid 1940s. Seven (7) of the nine (9) historical residential structures and all associated garages were demolished in 1972, and a high-rise apartment building was developed centrally on-Site, in the same configuration as present day. It should be noted that two (2) of the nine (9) houses are in the same building footprint configuration as present day (1771 and 1773 Jane Street). In 1967, a restaurant was developed in the southwest corner of the Site. According to the city directory listing, a Ron's Fish and Chips was listed from 1955-1965. The orientation of the historic Site Buildings are depicted on Figure 2A.

The Phase One Property is currently occupied by one (1) 14 storey apartment building with six (6) commercial units located on the main floor, with one (1) level of underground parking. An asphalt parking lot is located south and north of the apartment building. The apartment building and ground level parking is located centrally on-Site and occupies majority of the Phase One Property. One (1) house and one (1) derelict bakery were located on the northern portion of the Site. The orientation of the Site Buildings are depicted on Figure 2B and a Phase One Property Site Plan showing the adjacent property uses is shown on Figure 3.

Based on the information obtained as part of this investigation, it is concluded that a total of 31 PCAs were identified within the Phase One Study Area, of which 15 PCAs are contributing to 8 APECs on, in or under the Phase One Property.

1.1 Potentially Contaminating Activity Affecting the Phase One Property

All PCAs identified within the Phase One Study Area are presented on Figure 4 and the associated APECs are shown on Figure 5. The PCAs which are considered to contribute to APECs on, in or under the Phase One Property are summarized in the table below:

Summary of PCAs and APECs

PCA ID No.	PCA Description (Per. Table 2, Schedule D of O.Reg. 153/04)	Description	Contributing to APEC (Y/N)
PCA-1	#N/S: Applied de-icing agents	On-Site: The property was bounded by Jane Street to the west and Marshlynn Avenue to the south, with accompanying sidewalks. The Property also featured paved areas north of the residential apartment building and south of the apartment building, near the commercial units. During the winter months, a substance (salt) is applied to the road, parking areas and sidewalks for safety purposes. Source: Site Reconnaissance	Yes – APEC 1
PCA-2	#28: Gasoline and Associated Products Storage in Fixed Tanks	On-Site: Based on the age of the building it is likely that the building was formerly heated with fuel oil at 1773 Jane Street. Source: FIPs, Site Reconnaissance	Yes – APEC 2
PCA-3	#28: Gasoline and Associated Products Storage in Fixed Tanks	On-Site: Based on the age of the building it is likely that the building was formerly heated with fuel oil at 1771 Jane Street. Source: FIPs, Site Reconnaissance	Yes – APEC 3
PCA-4	#30: Importation of Fill Material of Unknown Quality	On-Site: Importation of fill material of unknown quality is possible for grading and backfill purposes during construction of Site buildings Source: FIPs, Historical Aerials	Yes- APEC 4
PCA-5	#28: Gasoline and Associated Products Storage in Fixed Tanks	Off-Site: A garage with 3 underground storage tanks (USTs) was located at 1778 Jane Street, approximately 20 m northwest of the Site. Source: 1961 FIPs, CDs	Yes – APEC 7
PCA-6	#28: Gasoline and Associated Products Storage in Fixed Tanks	Off-Site: A gasoline service station with 3 USTs and oiling/greasing shop was located	No – due to distance and

PCA ID No.	PCA Description (Per. Table 2, Schedule D of O.Reg. 153/04)	Description	Contributing to APEC (Y/N)
		at 1683 Jane Street, approximately 140 m south of the Site. Source: 1961 FIPs, CDs	downgradient orientation
PCA-7	#27: Garages and Maintenance and Repair of Railcars, Marine Vehicles and Aviation Vehicles	Off-Site: Grand Rapid Auto Body, a body and fender repairs business was located at 1712 Jane Street, approximately 85 m south of the Site Source: 1961 FIPs, CDs	No – due to distance and downgradient orientation
PCA-8	#N/S: Historical Soil Quality	On-Site: The previous geotechnical investigation completed by SPL in 2015, identified fill material at the property ranging between 1.5 to 1.8 mbgs. Source: SPL 2015 Geotechnical Investigation	Yes – APEC-5
PCA-9	#27: Garages and Maintenance and Repair of Railcars, Marine Vehicles and Aviation Vehicles	Off-Site: A bus tour company was located at 1672 Jane Street, approximately 250 m south of the Site. Source: CDs	No – due to distance and downgradient orientation
PCA-10	#27: Garages and Maintenance and Repair of Railcars, Marine Vehicles and Aviation Vehicles	Off-Site: A truck rental business was located at 1676 Jane Street, approximately 225 m south of the Site. Source: CDs	No – due to distance and downgradient orientation
PCA-11	#27: Garages and Maintenance and Repair of Railcars, Marine Vehicles and Aviation Vehicles	Off-Site: An auto service and repair shop was located at 1677 Jane Street, approximately 225 m south of the Site. Source: CDs	No – due to distance and downgradient orientation
PCA-12	#31: Ink Manufacturing, Processing and Bulk Storage	Off-Site: A commercial printing business was listed at 1682 Jane Street, approximately 200 m south of the Site, in 1996/97. Source: CDs	No – due to distance and downgradient orientation
PCA-13	#27: Garages and Maintenance and Repair of Railcars, Marine Vehicles and Aviation Vehicles	Off-Site: An auto service and repair shop was located at 1690 Jane Street, approximately 150 m south of the Site. Source: CDs	No – due to distance and downgradient orientation
PCA-14	#27: Garages and Maintenance and Repair of Railcars, Marine Vehicles and Aviation Vehicles	Off-Site: A truck rental business was located at 1694 Jane Street, approximately 140 m south of the Site. Source: CDs	No – due to distance and downgradient orientation
PCA-15	#29: Glass Manufacturing	Off-Site: A glass manufacturing business was located at 1700 Jane Street, approximately 110 m south of the Site.	No – due to distance and

PCA-16	#27: Garages and Maintenance and Repair of Railcars, Marine Vehicles and Aviation Vehicles	Off-Site: A truck rental business was located at 1705 Jane Street, approximately 110 m south of the Site. Source: CDs	No – due to distance and downgradient orientation
PCA-17	#37: Operation of Dry Cleaning Equipment (where chemicals are used)	Off-Site: A dry cleaners was located at 1714 Jane Street, approximately 85 m south of the Site. Source: CDs, ERIS	No – due downgradient orientation
PCA-18	#27: Garages and Maintenance and Repair of Railcars, Marine Vehicles and Aviation Vehicles	Off-Site: A truck rental business was located at 1721 Jane Street, approximately 35 m south of the Site. Source: CDs	No – due to downgradient orientation
PCA-19	#37: Operation of Dry Cleaning Equipment (where chemicals are used)	Off-Site: A dry cleaners was located at 1727 Jane Street, approximately 15 m south of the Site. Source: CDs	Yes – APEC 8
PCA-20	#37: Operation of Dry Cleaning Equipment (where chemicals are used)	Off-Site: A dry cleaners was located at 1744 Jane Street, approximately 15 m west of the Site. Source: CDs	Yes – APEC 8
PCA-21	#27: Garages and Maintenance and Repair of Railcars, Marine Vehicles and Aviation Vehicles	Off-Site: An auto service and repair shop was located at 1772 Jane Street, approximately 15 m west of the Site. Source: CDs	Yes – APEC 6
PCA-22	#28: Gasoline and Associated Products Storage in Fixed Tanks	Off-Site: A gasoline service station was located at 1772 Jane Street, approximately 15 m west of the Site. Source: CDs, ERIS	Yes – APEC 6
PCA-23	#28: Gasoline and Associated Products Storage in Fixed Tanks	Off-Site: A gasoline service station was located at 1778 Jane Street, approximately 20 m northwest of the Site. Source: CDs	Yes – AEPC 7
PCA-24	#37: Operation of Dry Cleaning Equipment (where chemicals are used)	Off-Site: A dry cleaners was located at 1782 Jane Street, approximately 35 m northwest of the Site. Source: CDs, Site Reconnaissance	Yes – APEC 7
PCA-25	#37: Operation of Dry Cleaning Equipment (where chemicals are used)	Off-Site: A dry cleaners was located at 1788 Jane Street, approximately 55 m northwest of the Site.	Yes – APEC 7

PCA ID No.	PCA Description (Per. Table 2, Schedule D of O.Reg. 153/04)	Description	Contributing to APEC (Y/N)
		Source: CDs	
PCA-26	#33: Metal Treatment, Coating, Plating and Finishing	Off-Site: Industrial Specialties Co. was located at 1791 Jane Street, approximately 60 m north of the Site. Source: CDs	Yes – APEC 7
PCA-27	#28: Gasoline and Associated Products Storage in Fixed Tanks	Off-Site: Suncor Energy Products Partnership located at 1750 Jane Steet, approximately 15 m west of the Site, was listed for the generation of light fuels and waste oils/sludges. Source: ERIS	Yes – APEC 6
PCA-28	#N/S: Historic Spill	Off-Site: North York Hydro spilled 18 L of transformer oil to asphalt at 18 Marshlynn Avenue approximately 15 m west of the Site. Source: ERIS	No – due to consideration of limited mobility and of limited volume of potential contaminants.
PCA-29	#N/S: Historic Spill	Off-Site: ESSO Petroleum Canada located at 51 Patika Avenue, approximately 75 m west of the Site, was registered for a 0.5L furnace oil spill to concrete, in 2001. Source: ERIS	No – due to consideration of limited mobility and of limited volume of potential contaminants.
PCA-30	#N/S: Historic Spill	Off-Site: Vehicle Service Station located 1683 Jane Street, approximately 140 m south of the Site, was registered for a spill of unknown quantity of oil and gasoline mixture, in 1997. Source: ERIS	No – due to distance and downgradient orientation
PCA-31	#N/S: Historic Spill	Off-Site: 3 L of transformer fluid spilled to Black Creek at Jane Street and Queens Drive, approximately 170 m north of the Site, due to vandalism in 1992. Reported observations of diesel or oil sheen in Black Creek were noted, in 2000. Source: ERIS	No – due to distance from the Site

N/S - not specified in Table 2, Schedule D, of O.Reg. 153/04
* - The area is subject to application of de-icing salts for road safety purposes. Per Section 49.1 (1) of O.Reg. 407/19, published December 4, 2019 "*If an applicable site condition standard is exceeded at a property solely because of one of the following reasons, the applicable site condition standard is deemed not to be exceeded for the purpose of Part XV.1 of the Act*": "*…that a substance has been applied to surfaces for the safety of vehicular or pedestrian traffic under conditions of snow or ice or both*". Any potential impacts associated with EC and/or SAR in soil, and sodium and/or chloride in groundwater will be deemed not to exceed the MECP Site Conditions Standards for the area identified in APEC-1.

The table of APECs presented in the form as approved by the Director is provided below, in accordance with clause 16(2)(a), Schedule D, O.Reg. 153/04.

Summary of APECs Identified on Phase One Property

APEC	Location of APEC	PCA	Location of PCA	Contaminants of Potential Concern	Media Potentially Impacted
APEC-1	Entire Property, with the exception of the building footprints, and the grassed northeast corner	#N/S: De-icing agents*	On-Site PCA-1	EC, SAR	Soil
				Na, Cl-	Groundwater
APEC-2	Northwestern portion of the Property	#28: Gasoline and Associated Products Storage in Fixed Tanks	On-Site PCA-2	PHCs, BTEX, PAHs	Soil and groundwater
APEC-3	Northwestern portion of the Property	#28: Gasoline and Associated Products Storage in Fixed Tanks	On-Site PCA-3	PHCs, BTEX, PAHs	Soil and groundwater
APEC-4	Entire Property, excluding the footprint of the underground parking garage	#30: Importation of Fill Material of Unknown Quality	On-Site PCA-4	Metals, As, Sb, Se, B-HWS, CN-, Cr (VI), Hg, low or high pH, PAHs	Soil
APEC-5	Entire Property, excluding the footprint of the underground parking garage	#N/S: Historical Soil Quality	On-Site PCA-8	Metals, As, Sb, Se, B-HWS, CN-, Cr (VI), Hg, low or high pH, PAHs	Soil
APEC-6	Western portion of the Property	#28: Gasoline and Associated Products Storage in Fixed Tanks	Off-Site PCA-5	PHCs, BTEX, PAHs	Groundwater
		#27: Garages and Maintenance and Repair of Railcars, Marine Vehicles and Aviation Vehicles	Off-Site PCA-21	PHCs, VOCs, BTEX, PAHs	
		#28: Gasoline and Associated Products Storage in Fixed Tanks	Off-Site PCA-22 PCA-27	PHCs, BTEX, PAHs	
APEC-7	Northwestern portion of the Property	#28: Gasoline and Associated Products Storage in Fixed Tanks	Off-Site PCA-23	PHCs, BTEX, PAHs	Groundwater
		#37: Operation of Dry Cleaning Equipment (where chemicals are used)	Off-Site PCA-24 PCA-25	VOCs	
		#33: Metal Treatment, Coating, Plating and Finishing	Off-Site PCA-26	Metals, As, Sb, Se, CN-, Cr (VI), Hg, PAHs, BTEX	
APEC-8	Southwestern portion of the Property	#37: Operation of Dry Cleaning Equipment (where chemicals are used)	Off-Site PCA-19 PCA-20	VOCs	Groundwater

1.1.1 Contaminants of Potential Concern

A summary of the contaminants of potential concern identified for each respective APEC is presented in Table above.

1.1.2 Underground Utilities and Contaminant Distribution and Transport

Underground utilities can affect contaminant distribution and transport. Trenches excavated to install utility services, and the associated granular backfill may provide preferential pathways for horizontal contaminant migration in the shallow subsurface.

Underground utilities were identified at the Phase One Property, including water, natural gas, electrical, and sewer services to the existing Site Building. Plans were not available to confirm the depths of these utilities, however they are estimated to be installed at depths ranging from 2 to 3 metres below ground surface.

The depth to groundwater at the Phase One Property is inferred to be approximately 3 metres below ground surface, therefore the utility corridors are expected to above the water table and would not act as preferential pathways for contaminant distribution and transport in the event that shallow subsurface contaminants exist at the Phase One Property.

1.1.3 Geological and Hydrogeological Information

The topography of the Phase One Property is generally flat, with a surface elevation of 127 metres above sea level (masl). The topography within the Phase One Study Area generally slopes to the east/northeast, towards Black Creek located 100 m east of the Site. The topography in the Phase One Study Area also slopes to the southeast towards the meandering Black Creek and Lake Ontario, located 8 km south of the Site. According to the SPL 2015 Geotechnical Investigation, the groundwater on-Site ranged between 2.2 and 3.7 mbgs, with respective elevations of 123.6 and 124.4 masl. The deep well (BH15-2 D) had a groundwater depth of 11.7 mbgs and an elevation of 115.3 masl. The shallow groundwater flow direction within the Phase One Study Area is inferred to be east/southeast towards Black Creek.

The Site is situated within a sand plain physiographic region. The surficial geology in the vicinity of the Site is described as “coarse-textured glaciolacustrine deposits” with sand, gravel, minor silt and clayforeshore and basinal deposits. The underlying bedrock within the area generally consists of shale, limestone, dolostone, siltstone, Georgian Bay Formation; Blue Mountain Formation; Billings Formation; Collingwood Member; Eastview Member. Based on a review of the Ministry of Energy, Northern Development and Mines Bedrock Topography and Overburden Thickness database, the bedrock in the Phase One Study Area is anticipated to be encountered at a depth of approximately 20 mbgs. It should be noted that the concurrent DS 2025 geotechnical and hydrogeological investigations included the advancement of two (2) boreholes to depths of approximately 46.3 and 49.4 mbgs and bedrock was not encountered within the termination depth.

1.1.4 Uncertainty and Absence of Information

DS has relied upon information obtained from federal, provincial, municipal, and private databases, in addition to records and summaries provided by ERIS. All information obtained was reviewed and assessed for consistency, however the conclusions drawn by DS are subject to the nature and accuracy of the records reviewed.

All reasonable inquiries were made to obtain reasonably accessible information, as mandated by O.Reg.153/04 (as amended). All responses to database requests were received prior to completion of this report, with the exception of the MECP FOI request. If the MECP FOI request produces information which may alter the conclusions of this report, an addendum will be provided to the Client. This report reflects the best judgement of DS based on the information available at the time of the investigation.

Information used in this report was evaluated based on proximity to the Phase One Property, anticipated direction of local groundwater flow, and the potential environmental impact on the Phase One Property as a result of potentially contaminating activities.

The QP has determined that the uncertainty does not affect the validity of the Phase One ESA Conceptual Site Model or the conclusions of this report.
